CLASSES FOR YOUTH AGES 4-16

ARTS/CULINARY

Anything Goes Art!

This is the perfect class for the undecided artist! You'll explore the world of art as you learn about the tools and techniques that inspire creative expression in a variety of mediums. Each day you'll work on a different project showcasing mediums like blown ink drawings, painting with resists, Artist Trading Cards and more. By the end of a fun-filled week, you will take home a group of one-of-a-kind pieces of art to display and share with your family and friends.

Instructor: Sherri Beeler
Ages 8-12, July 20-24, M-F, 9:00-11:00
Location: Campbell C
Course No: 300102 Fee: \$119

Beyond Bugs Bunny: Cartooning for Kids

Get ready for cartoon mania as you draw your cartoon character favorites from Big Hero 6, How to Train Your Dragon 2, Disney's Gravity Falls, Adventure Time and more. Your 'tooning tools will include pencils, erasers, markers and other art supplies as you design your own microbots, animals, Bewilderbeasts and cartoon creatures of all kinds bringing them to life in this blast of an art class!

Instructor: Craig Honeycutt
Ages 8-12, July 13-17, M-F, 1:00-4:00
Location: Campbell C
Course No: 300094 Fee: \$139

Fabulous Fashionistas – Season II

Do you have a passion for fashion? You'll begin this class by learning to create your own custom clothing form using lots of tape, stuffing and spray paint. Then gather sample materials and learn how to sketch your ideas for your designer paper clothing. With all kinds of adornments you will create a custom fitted, wearable paper outfit and at the end the week you and your designer classmates will model your creations at the very exclusive Fashionistas Runway Show. Parents and friends are invited to attend! Note: Each student will need to bring or wear a tight fitting crew neck T-shirt that will be the underlining of the clothing form. Students are also encouraged to bring their own found items to help embellish their clothing.

Instructor: Pravina McClure
Ages 9-13, July 20-24, M-F, 1:00-3:00 pm
Location: MA 101
Course No: 300101 Fee: \$119

Kids in the Kitchen: Culinary Arts Institute

Join the ranks of young chefs exploding onto the culinary scene and work with a professional chef to create fabulous dishes every day. Along the way, you'll get lots of hands on experience learning how to measure, mix, stir and use the tools of the culinary trade. The week will include a 'meet the farmers' visit to the Ashland Farmers Market and a tour of the garden at SOU's new Center for Sustainability where you'll learn how some of your recipe ingredients are grown.

Instructor: Marilyn Moore
Ages 7-10, July 13-17, M-F 9:00-4:00
Location: SOU Family Housing Community Kitchen
Course No: 300089 Fee: \$279

Mask Maker, Mask Maker, Make Me a Mask!

Masks are worn for protection, entertainment, ritual and disguise. The ancient Aztecs used gold and precious gems on their masks while feathers, seashells and wood adorned masks in Papua New Guinea. Guests at medieval masquerade balls hid behind their masks. You'll learn about the colorful history of these pieces and use your personal inspiration and vision to custom design your own mask. Plaster, paint, feathers, 'gems and jewels' and objects from the natural world are just some of the decorative objects you can use to make a brilliant maskpiece!

Instructor: Sherri Beeler
Ages 8-12 July 13-17, M-F 9:00-11:00
Location: Campbell C
Course No: 300103 Fee: \$119

Off the Eaten Path: Culinary Arts Institute

The keys to the kitchen are yours in this hands-on culinary adventure. Guided by a professional chef you will unlock the flavors of the world in the daily dishes that you create. Hone your skills as you learn knife techniques and how to use a variety of kitchen tools and equipment to help you develop your cooking style. A trip to the Ashland Farmer's Market to 'meet the farmers' and find out how their food is grown will be a special highlight of this wonderful week in the kitchen!

Director: Marilyn Moore
Ages 11-14 August 10-14, M-F, 9:00-4:00
Location: SOU Family Housing Community Kitchen
Course No: 300090 Fee: \$279

Shazam! Super Power Heroes and Heroines in Art!

Bring all of your kid super powers with you and learn how to draw the essential parts of virtually every Superhero or heroine in history. You'll explore the shapes, sizes and style of these characters as you create drawings of Batman fighting crime in Gotham or Wonder Woman's homeland Themyscira and her famous Lasso of Truth. Villians may also make an appearance as you draw as many details of each superhero story as you can imagine!

Instructor: Craig Honeycutt

Ages 8-12, July 20-24, M-F, 1:00-4:00

Location: Campbell A

Course No: 300104 Fee: \$139

The Eyes Have It

On the face of it, artists begin drawing faces starting with the eyes and work outward from there. In this amazing class with a master teacher, you'll experiment with drawing the kinds of faces that interest you the most. Using the 'human face formula' you may draw human faces, manga faces, comic faces, caricatures and more. You'll explore fundamental skills of drawing facial features and experiment with light and shade as you apply new skills and detail to each piece and master new techniques each day.

Instructor: Craig Honeycutt

Ages 11-14 July 27-31, M-F, 1:00-4:00

Location: MA 101

Course No: 300105 Fee: \$139

Got it Covered! Chunky Book Creations

Think outside the book as you explore your creative skills and apply collage and mixed media techniques to create your own 'chunky book'. Chunky books are fat, stiff-paged books with so many layers and embellishments that the book will not close. Add secret pockets, pull-outs, tabs and unique features to cover your one-of-a-kind artistic creation!

Instructor: Sherri Beeler

Ages 8-12 July 27-31, M-F 9:00-11:00

Location: Campbell A

Course No: 300088 Fee: \$119

Wild and Woolly Animal Artworks

Draw yourself crazy in this fun-filled animal art class! You'll learn about the places where wild animals live and create the animals that live there using colorful clay, pencils, colored pencils, markers and more. Try your hand at drawing an ancient woolly mammoth, an African lion or an exotic bird. You choose the animals and it will be a gr-r-r-animal art class!

Instructor: Craig Honeycutt

Ages 6-8, July 6-10, M-F, 9:00-12:00

Location: Campbell A

Course No: 300106 Fee: \$139

COLLEGE PREP

College Prep Institute

Come learn what getting into college is all about. This college preparation program provides you with effective test-taking strategies and test preparation skills to help you succeed on the SATs. A college essay seminar provides an opportunity for you to learn the components of an effective college admissions essay. An evening parent seminar will focus on timetables, evaluating colleges, applications, finances, and applying for scholarships. Instructors: A team of qualified instructors who have experience preparing students for college.

Ages 14-18, August 3-6, M-TH, 9:00-1:00

Location: EP 292

Course No: 320004 Fee: \$239

Conquer the Essay

Boost your score on the SAT and ACT timed essay or enhance your college entrance essay. Build a knowledge bank of specific examples from history, literature, and personal experience. Then practice writing timed essays on a variety of topics. You will develop confidence in your writing, strengthen vocabulary and grammar skills, increase reading comprehension, improve critical/creative thinking skills and expand descriptive writing abilities.

Instructor: Anna Schatz

Ages 15-18, August 17-21 9:00-12:00

Location: EP 294

Course No: 320006 Fee: \$139

COMPUTERS/VIDEO/FILM/PHOTOGRAPHY

Claymation/Animation

Explore the wide world of object and clay animation. Using colorful modeling clay, create fanciful creatures and cartoon-like characters with settings for your stories. You will be using "stop-action" animation and learn basic camera techniques and composition to record your character's movements. Build on your camera and storytelling skills in this hands-on, fun-filled class and be able to share online access to your finished films with your family and friends.

Instructor: Samar Dawisha

Session I: Ages 9-13 July 13-17, M-F, 9:00-12:00

Session II: Ages 9-13 August 10-14, M-F, 9:00-12:00

Location: Campbell A

Course No. 330008 Fee: \$149

There's an App for That:

Computer Games and Apps Institute

Do you have a passion for gaming, computers, electronics, and new technology? Building on basic programming techniques you'll learn about the construction of gaming programs in hands on activities using Game Maker software. Mobile apps are the next step as you dive into the details of app construction with your instructor as your guide. You'll create 1-2 apps each day as you use the latest and greatest computer technologies and state-of-the-art equipment in this exciting class. Enjoy a flexible course that provides you with creative freedom, and showcase your own apps for the entire class on the final day.

Director: Christopher Rosetta

Ages 11-14, July 20-24, M-F, 9:00-4:00

Location: CE 104

Course No: 330050 Fee: \$279

Epic Tech Institute

Do you have a passion for gaming, computers, electronics, and new technology? Have you ever wanted to learn how to manipulate photos? Make animations? Tell an epic digital tale? Build a website? The Epic Tech Institute provides you with the opportunity to do all of the above and much, much more! Discover your digital potential using the latest and greatest computer technologies, state-of-the-art equipment and a staff of professionals with years of industry experience. Enjoy a flexible course that provides you with the creative freedom needed to create multiple projects and develop knowledge and skills that will last you a lifetime.

Director: Steve Roby

Ages 9-14, August 10-14, M-F, 9:00-4:00

Location: RVTV Computer Lab

Course No: 330041 Fee: \$279

Expeditions in Photography and Digital Editing

Reach for the stars with your digital camera as you use your creative eye to capture images that you will be excited to share. You'll learn how to use your camera to visually express the world around you as you explore the use of light, color, pattern and composition. Hands-on time in the computer lab will enable you to experiment with fun editing techniques to enhance your amazing images. Please note: All students need to bring a digital camera with fully charged batteries.

Instructor: Mary Wilkins-Kelly

Ages 9-13, August 3-7, M-F, 1:00-3:00

Location: Campbell A and Britt 251

Course No: 330051 Fee: \$119

Flash! Awesome Computer Animation

Introduce yourself to the Flash Animation computer program in this exciting interactive class. Learn how web developers use Flash in webpage design. Dive into the Flash environment and find out about the tools for creating animation and learn basic animation concepts.

Instructor: Otis Richardson

Ages 9-12 August 3-7, M-F, 10:00-12:00

Location: CE 104

Course No: 330026 Fee: \$139

Introduction to Video Game Design

Explore the high-tech, fast moving world of video games and design concepts and learn how video game design can become a career path. From Atari's Pong to the Natal Projection XBOX 360 you will canvass the various genres and gaming platforms. Use game development tools like GameMaker to learn basic game design elements from game flow and sprite creation to backgrounds and sound all wrapped into basic programming exercises.

Instructor: Michel Knowles

Session I: Ages 11-14, July 13-17, M-F, 9:00-12:00

Session II: Ages 11-14, July 27-31, M-F, 9:00-12:00

Location: CE 104

Course No: 330032 Fee: \$139

Intermediate Video Game Design

Continue to explore the high-tech, fast moving world of video games, game design concepts and the possibility to turn your passion into a real life career in this class for intermediate game design students. You'll work with a production team to experience the game design life cycle as you develop a fun and rewarding team project. Learn how to add polish and charm to your game through the use of GameMaker scripting language – GML and you'll be amazed at the results! Note: This class is recommended for students with some prior game design experience or for those who have taken the introduction to Video Game Design class.

Instructor: Michel Knowles

Session I: Ages 11-14, August 10-14, M-F, 1:00-4:00

Session II: Ages 11-14, August 17-21, M-F, 1:00-4:00

Location: CE 104

Course No: 330052 Fee: \$139

Photo Safari

Get ready to go wild with your camera as you go on daily scavenger hunts in this exciting class. Each day you'll work from a new list that might include landmarks on the SOU campus, specific items to search for, or special themes that you'll seek out and photograph as you sharpen your creative eye. As you travel in this photo safari you'll learn about lighting, composition, perspective and how to frame your best shots. Please note: All students need to bring a digital camera with fully charged batteries.

Instructor: Mary Wilkins-Kelly

Ages 9-13, July 27-31, 1:00-3:00

Location: Campbell C

Course No: 330053 Fee: \$119

Quiet on the Set and... Action!

Learn about all the elements of film making — scripts, props, costumes, directing, cameras, and more. You'll create original scripts, and then shoot the movie "on location" on the SOU campus using digital video equipment. The last day will be movie day, so bring your family and enjoy some treats.

Instructor: Jeff Rhoades

Ages 9-12, July 6-9, M-TH, 12:00-4:00

Location: Britt 251

Course No: 330035 Fee: \$149

"I loved hanging out with so many amazing people" —Summer 2012 Rock the Wall student

We're Rolling!

Work as a production team to create your own short film using professional production techniques. You'll brainstorm creative ideas, write your scripts, scout shooting locations and use props and costumes as you direct and then shoot your film using digital video equipment on the SOU campus.

Instructor: Jeff Rhoades

Ages 11-14, July 13-16, M-TH, 12:00-4:00

Location: Britt 251

Course No: 330048 Fee: \$149

DANCE/ MUSIC/ THEATRE

Conservatory for Young Theatre Artists,

Camelot Theatre Company (CTC)

This exciting camp is designed to either introduce or expand the developing artist in the areas of improvisation, voice, acting, dance and Shakespeare. Working with professional artists, the day moves from classes to workshops to a performance of select material for an audience of family and friends.

Instructors: Livia Genise leads a team of instructors: Amanda Andersen, Genevieve Andersen, Nathan Monks and Steven Dominguez, all associated with the popular Camelot Theatre in Talent, Oregon.

Ages 9-17, August 17-21, M-F, 9:00-4:00

Location: SOU Theatre Arts Building

Course No: 340003 Fee: \$279

From the Page to the Stage: The Art of Dramatic Writing

Have you ever wanted to write an original play for the stage or a screenplay for film or television? Discover the key elements of dramatic writing as you develop dialogue driven scenes and have the chance to see and hear your characters come to life

when they are performed by other students. Pull out all the stops and watch your creative instincts come to life on stage!

Instructor: Wind Woods

Ages 11-14, July 13-17, M-F, 1:00-3:00

Location: Campbell D

Course No: 340041 Fee: \$119

Summer with Shakespeare!

Spend some time with the Bard and unlock the mysteries of his poetic voice as you engage in exciting physical and vocal exercises to help you express the meaning in some of his most famous monologues. Led by a theatre professional, you'll be amazed as you discover the rhymes, rhythm and meter of these historic works.

Instructor: Wind Woods

Ages 11-14, July 20-24, M-F, 1:00-3:00

Location: Campbell D

Course No: 340044 Fee: \$119

Two Ways Playin': Electro Acoustic Music Institute

Come immerse yourself in an authentic song-building process that allows everyone to be successful regardless of experience level! Rooted in traditional acoustic sounds and rhythms, this class will teach you the basics of rhythm, music theory and song arrangement. Beginning with guitar and drums to develop your own acoustic songs, you'll be guided in using computers and music software to create evocative digital sounds that make your work truly distinctive. This class is designed to build your confidence, inspire creative expression, and instill a love of music in both aspiring musical artists and future audiences.

Instructors: Steve Roby and Oneal Latimore

Ages 11-14, August 17-21, M-F, 9:00-4:00

Location: MUS 014 Computer Lab and Studio

Course No: 340043 Fee: \$279

RECREATION/SPORTS

Engarde! Fencing Fun

Safe inside a mask and jacket, you will be introduced to the exciting sport of fencing. Learn the skills of touching (scoring on) your partner, while avoiding being scored on, as well as learning the respect, ethics, and camaraderie involved in this classic sport. Note: All equipment supplied.

Instructor: Dylan Shelton

Session I: Ages 9-12, August 3-7, M-F, 10:00-12:00

Session II: Ages 9-12, August 17-21, M-F, 10:00-12:00

Location: MUS 220

Course No: 370032 Fee \$119

It's a Racquet! Mixed Level Tennis

Whether you want to improve your game or are just a beginning player, you will learn creative drills, basic strokes, serving techniques, and how to play a match. Amaze yourself as you master the basics of serves, volleys, backhand strokes, overheads and the skills you'll need to win on and off the courts! Individual instruction and teamwork will all be part of the game in this fun filled class. Note: Please bring a racquet if you have one. Some racquets may be supplied upon request.

Instructor: Dana Yearsley

Session I: Ages 8-12, July 6-10, M-F, 9:00-11:00

Session II: Ages 8-12, August 3-7, M-F 9:00-11:00

Location: SOU Stadium Tennis Courts

Course No: 370040 Fee: \$119

Horsing Around at the Flying L Ranch

Calling all horse lovers! Learn to ride and care for horses this summer in classes that are based on CHA (Certified Horsemanship Association) instruction. Each session includes mounted lessons, lectures on horsemanship theory and safety, horse related crafts and activities, as well as an introduction to the wholesome ranch life. Campers participate with pride in the routine hands-on care and handling of horses and find out what it really means to own a horse. Note: At the start of each session campers are evaluated, matching mounts and lesson plans to the ability of the individual.

Instructors: Owner, Leslie Hunter and the Flying L Ranch Staff

Session I: July 20-24, Ages 9-13, M-F, 9:00-11:00

Session II: August 3-7, Ages 9-13, M-F, 9:00-11:00

Session III: August 17-21, Ages 9-13, M-F, 9:00-11:00

Location: Flying L Ranch

Course No: 370037 Fee \$199

Rock the Wall!

Join us for a week of games and outdoor rock wall climbing at Emigrant Lake! You'll learn the basics of knot tying, gear use and management and beginner climbing technique with our knowledgeable instructors. No experience required. Channel your inner monkey and climb your way into one of the greatest outdoor sports around! Note: Equipment rental is included in the class fee.

Instructors: Kelly Sosa and Althea Sullivan

Session I: Ages 11-14, July 6-10, M-F, 9:00-12:00

Session II: Ages 11-14, July 13-17, M-F, 9:00-12:00

Location: Emigrant Lake Rock Wall

Course No: 370046 Fee \$155

Tee Off! Junior Golf Workshop

What can be better than golf in the summer! Join in this 'swinging' class designed for beginning and intermediate players. Practice your swing, chip, and putt as you learn etiquette and rules. Start learning how to play like your golf heroes! Note: Students must provide their own golf equipment.

Instructor: Ryan Wymore

Ages 7-12, August 10-14, M-F, 12:00-1:00

Location: Centennial Golf Club, Medford

Course No: 370026 Fee: \$69

SCIENCE/ STRATEGY GAMES/ENGINEERING

Bee Academy

Discover what all of the buzz is about in the Bee Academy! You will get a hands-on, up close experience as you study the lives of bees. The SOU apiary in the ECOS Community Garden has three bee hives, and this garden will be our outdoor classroom. Young beekeepers will wear protective bee suits and use beekeeping equipment to explore the inner workings of a honey bee hive. You will record your observations of bee behavior in your Bee Log, monitor the health of the queen, taste real honey, and plant native wildflowers in the garden to provide nectar and pollen for the bees. You and your classmates will also design and build a "bee hotel" to host native bees in the apiary. At the end of Bee Academy, you will receive your own Bee Badge as a certified beginner beekeeper, equipped with the knowledge and curiosity to be lifelong friends with bees!

Instructor: Jamie Hickner

Ages 9-12, July 27-31, M-F, 9:00-11:00

Location: EP 292 and SOU Community Gardens

Course No: 380079 Fee: \$119

Crime and Puzlement:

Crime Scene Investigators Institute

Become a detective and conduct forensic science tests on evidence found at mock crime scenes. You'll use your powers of observation, your critical thinking skills and your ability to work with a team to solve multiple mysteries. Using crime scene investigation principles, you'll perform experiments to narrow down your suspect list and interview suspects while piecing together the events leading up to the crime. Put on your detective cap as you work with fingerprints, footprint molds and more as you follow the clues to solve each crime!

Director: Steve Roby

Ages 8-12, July 13-17, M-F, 9:00-4:00

Location: Campbell D

Course No: 380089 Fee: \$279

Epic Chain Reactions

Have you ever heard of the 'domino effect'? It means that a chain reaction of some kind has been set in motion and will continue until it is interrupted. In this exciting class you will be creating epic or life sized domino effects as you learn about Newton's Laws of Motion and thermodynamics. Working with a team to plan and design a variety of chain reactions using simple machines and other objects you will execute your plans. Your critical thinking skills will help as you measure and build in this epic class.

Session I: Ages 8-12, July 20-24, M-F, 1:00-3:00

Session II: Ages 8-12, July 27-31, M-F, 1:00-3:00

Instructor: Steve Roby

Location: Campbell E

Course No. 380098 Fee: \$119

LEGO Robotics Olympics

Engineering and the Olympic spirit come together in this class that will teach you the basics of LEGO robotics. Using LEGO Mindstorms software you'll learn to build and program robots using motors and sensors as you work in teams in a variety of competitions and activities. Have fun as you construct robots all week and see what they can do!

Session I: Ages 9-13, July 6-10, M-F, 9:00-11:00

Session II: Ages 9-13, August 10-14, M-F, 9:00-11:00

Instructor: Chris Duval

Location: Campbell E

Course No: 380060 Fee: \$119

LEGO Robot Challenge Workshop

Work in teams to meet challenges and learn mechanical and software design as you design, build and program a robot to compete against others in multiple challenges on a board similar to First Lego League. Celebrate your engineering skills by building advanced LEGO structures using Mindstorms software and equipment. Previous robot and LEGO experience is helpful.

Instructor: Chris Duval

Session I: Ages 9-13, July 13-17, M-F, 9:00-11:00

Session II: Ages 9-13, August 17-21, M-F, 9:00-11:00

Location: Campbell E

Course No: 380088 Fee: \$119

Mousetrap Engineering

You will be challenged to use your creativity and construction skills to design and build a vehicle that will attempt to travel thirty meters powered only by the energy of a mousetrap! Advanced designs and speedier cars will be possible for those willing to exceed the challenge.

Instructor: Steve Roby

Ages 8-12, July 6-10, M-F, 1:00-3:00

Location: Campbell E

Course No. 380073 Fee: \$119

"This class pushed me to do my best and I learned so much that I never knew!" —2014 Summer program student

Not So Bored Games

Settle Catan, cure a pandemic, and survive a rising flood with your team in this fun-filled class of collaborative and strategic games. Brave a desert storm with your friends one day and create your own Apples to Apples game the next! Victory will be sweet as you work together to develop strategies and analyze the best path to take. Games will take place in the classroom and outside as you play your way through each day.

Instructor: Steve Roby

Ages 8-12, July 20-24, M-F, 9:00-12:00

Location: Campbell E

Course No: 380092 Fee: \$139

Seriously Scientific Institute

Discover your inner scientist through a week of fun experimentation, investigation, and exploration. Through scavenger hunts, mini-hikes and hands on dissections you'll explore the world of land and sea. As you conduct experiments in physics and chemistry, be prepared to put on your lab coat and goggles to investigate chemical reactions. Learn about the laws of physics and the power of the sun as you make ice cream, launch bottle rockets, and build solar ovens. Be a biologist one day, a chemist, physicist, or engineer the next. Each day will be different and exciting!

Director: Kathy Nguyen

Ages 8-12, July 27-31, M-F, 9:00-4:00

Location: Campbell C

Course No. 380077 Fee: \$279

Petals and Pollinators

Discover the beautiful world of birds, butterflies, bees, ladybugs, dragonflies, and other pollinators. Through games, arts and crafts, songs, nature walks, and hands-on planting of seeds and flowers, you'll learn about your favorite backyard pollinators and how to grow the flowers that will attract them. You'll design a pollinator garden, learn about bird baths, bat boxes, and bee hotels, and make your own nests out of found natural materials. Once you've chosen your favorite pollinator, you'll build your own wings and join in as we fly around in our pollinator parade.

Instructor: Jamie Hickner

Ages 6-8, July 20-24, M-F, 9:00-11:00

Location: EP 292 and SOU Community Gardens

Course No: 380097 Fee: \$119

"I took this class last year and I wanted to come back. I was not disappointed!" —2014 Summer program student

Science Explorers in Nature Institute

The world around will be your guide as you become a nature explorer and find out what a day in the life of a field scientist might be like. Keeping notes and drawings in your field notebook, you will record your findings, get your hands on animal pelts and bones and conduct experiments in the lab to uncover the workings of our ecosystem through science. You'll discover how a biologist works to research and protect animals, how a botanist uncovers the mysteries of a newly discovered plant and what role the smallest bugs play in keeping your world spinning.

Instructors: Amanda Cordes and Alexandra Harding

Ages 8-12, July 6-10, 9:00-4:00

Location: Campbell C

Course No: 380096 Fee: \$279

Vet Med Camp

This exciting class will take place at one of our region's most important animal care facilities where you will learn behavior training and the basics of the care and handling of a variety of animals. You may assist the staff in exercising, walking and brushing the dogs one day and you may help in the care and feeding of cats and kittens on another day. Animal specialists and veterinary professionals will visit you to share their expertise as you explore the different professions in animal care and welfare.

Instructors: Southern Oregon Humane Society staff, volunteers, veterinary professionals & animal specialists.

Facilitator: Kelly Sosa

Session I: SOHS, Medford, Ages 10-14, July 27-31, M-F, 1:00-3:00

Session II: SOHS, Medford, Ages 10-14, August 3-7, M-F 1:00-3:00

Location: Southern Oregon Humane Society

Course No: 380051 Fee: \$119

Wilderness Masters

Discover life off the beaten path as you play camouflage and tracking games and learn outdoor survival techniques in this fun filled class. You'll get your hands on nature as you build shelters, cast animal tracks and make your own rope and tools. Explore the outdoors on naturalist led hikes and experience the different uses of many native plants that grow right in your own back yard!

Instructor: Alyssa Grove

Session I: Ages 8-12, August 10-14, M-F, 9:00-11:00

Session II: Ages 8-12, August 17-21, M-F, 9:00-11:00

Location: EP 294

Course No: 380095 Fee: \$119

SOU PRESCHOOL

SOU's Preschool will be open to community members. Three unique themed two-week sessions will be offered in the SOU School of Education's outstanding preschool facilities.

Head Teacher: Maureen Honeycutt

Building With Loose Parts

If you can imagine it, you can build it. In this session, we will be building with many different materials, indoors and out. From corks, rocks, sticks, and blocks, to Legos and magnets, tiles and pvc pipe. Some structures we will tear down and start over daily, some creations will go home at the end of our time together.

July 6-July 16, Ages: 3-5, M-TH, 9:00-1:00

Course No: 290004, Fee: \$239

Nature Art Camp

During the 8 days we have together, we will make suncatchers, painted rocks, our own paper, and all kinds of prints from the natural world on paper, fabric, and in sand. Explore the beauty of art made from things in your own backyard.

July 20-July 30, Ages: 3-5, M-TH, 9:00-1:00

Course No: 290005, Fee: \$239

Summer Science

Using simple ingredients found in the kitchen, we will play with ice, chalk, goop, slime, balloons and bubbles. Of course, some minor eruptions and explosions will be included!

August 3-August 13, Ages: 3-5, M-TH, 9:00-1:00

Course No: 290002, Fee: \$239

"It was really the best summer camp I've been to."—2014 Summer program student

SUMMER RESIDENTIAL CAMPS

Because of the popularity of our residential programs, we encourage students to complete and submit their applications early. Please call 541-552-6452 to receive a brochure and application, or visit our website at www.sou.edu/youth.

ACADEMY 2015

A Camp for Talented and Highly Able Students

Session 1: June 21–27, grades 5 and 6

Session 2: June 21–27, grades 7 and 8

ACADEMY offers stimulating academic classes, workshops, cultural experiences, social and recreational activities for talented and highly able students who have completed grades 5 through 8. Students selected for each weeklong residential session live on the Southern Oregon University campus, where they bring their love of learning, humor, and unique talents to a community where intelligence and creativity are valued and supported.

Fee: \$750 (Junior Counselor \$550)

ACADEMIA LATINA 2015

A Camp for Latino Students

August 2–8, grades 7–9

Academia Latina is designed to inspire Latino students to explore the learning and career opportunities that a university education offers. Academia Latina provides classes, workshops, cultural experiences, and recreational activities for Latino students who have completed grades 7 through 9. Students selected for the weeklong residential camp on the SOU campus interact with other Latino students from southern Oregon while being challenged by creative, bilingual instructors and exciting activities.

Fee: \$750 (scholarships available) + \$75 student activity fee

NATIVE AMERICAN YOUTH ACADEMY

A Camp for Native American students

July 11–18, grades 7–12

Konaway Nika Tillicum is a residential academy exploring a broad range of classes, lectures, cultural experiences and recreational activities in a university setting. Students selected interact with other Native American students from throughout Oregon. Participants spend time with tribal elders and Native American teachers during classes, lectures, and presentations. Scholarships are available.

Fee: \$825

YOUNG ARTISTS INSTITUTE

A camp for Creative Writing and Visual Arts students

July 26–August 1, 2015 grades 9–12

The Young Artists Institute is a residential program where students can stretch their talents, discover new strengths, and challenge themselves in a lively, supportive artistic environment. Participants receive first-class instruction by professional artists in creative writing and/or visual arts through intensive hands-on workshops, mentoring, evaluation, and presentation of creative works. Scholarships are available.

Fee: \$995

"My favorite thing was holding hands with an octopus! It was so much FUN!"—SEA Camp 2012 student

SEA CAMP OF OREGON

A Camp at the Oregon Coast

Session 1: August 18–21, ages 10–13

1:00pm Tuesday – 6:00pm Friday

Session 2: August 23–26, ages 10–13

1:00 pm Sunday–6:00 pm Wednesday

SEA Camp of Oregon offers a unique, hands-on learning experience at the beautiful coast of Charleston, Oregon.

Participants explore tidepools, go crabbing, observe marine wildlife, hike, and get involved in many other activities and field trips. Students live in the dorms at the Oregon Institute of Marine Biology and have access to lab facilities for exciting classes and presentations. Location: Depart from parking lot in front of SOU Cox Hall on Frances Lane, Ashland. Fee: \$545

OTHER SOU SUMMER PROGRAMS

These programs are offered through other SOU departments. Please contact them directly for information.

SOU SPORTS PROGRAMS 2015

The following sports camps are offered through the Athletics Department at SOU. For information, call the number listed for the program you are interested in or register at: souraiders.com

SOU Boys and Girls Basketball Camp

June 15–19, K–6th grades

Contact Lynn Kennedy at 541-552-6044

kennedy@sou.edu

July 14–16, grades 6th–8th

July 19–22, grades 7th–12th

Contact Josh Rohlfing at 541- 552-6728

rohlfingj@sou.edu

SUMMER AT SOU

Get a jump on college!

Take summer classes at Southern Oregon University. Special rates on 100 and 200 level courses for students entering their junior and senior year of high school. Call 541-552-6452 or visit our website at: sou.edu/youth

Instructor Profiles

Sherri Beeler has taught English for 24 years, along with Paper/Altered Arts; her published work appears in *The Stamper's Sampler*, and *Create With Me* magazines.

Amanda Cordes is working toward her Master's degree in Environmental Education and a secondary teaching license in biology at Southern Oregon University.

Samar Dawisha is a mixed media artist, performer and art educator. She has taught art (from painting to sculpture), performance and clay animation in the Rogue Valley for over 20 years to children, teens and adults.

Chris Duval has taught LEGO Robotics classes for 7 years at Kids Unlimited and for 3 years at SOU Pre-College Youth Programs. He enjoys technology and owns his own business fixing computers. He has been interested in LEGOS and robots since he was old enough to walk.

Alyssa Grove holds a B.S. in Environmental Studies for SOU and has worked as a naturalist and outdoor guide for the last 5 years in North Carolina, California, Hawaii and Oregon.

Alexandra Harding earned a degree in biology from Western Oregon University. She is a graduate student in the Environmental Education and in the Master's of Arts in Teaching Programs at Southern Oregon University.

Jamie Hickner teaches English, supervises MAT Language Arts students at Southern Oregon University, chairs SOU's Bee Campus USA Committee, and is a co-founder of Pollinator Project Rogue Valley.

Leslie Hunter is the Owner/Operator of the Flying L Ranch. She is a former outfitter and guide with the Oregon State Marine Board. She has three decades of hands-on experience working with horses.

Craig Honeycutt holds a M.A. in Art Education and is a local artist with more than twenty years of teaching experience.

Maureen Honeycutt is earning her M.Ed. in Early Childhood Development at SOU. She worked as a head teacher at Duck's Nest Preschool in Berkeley, CA. from 1990-1997.

Michel Knowles has a passion for technology and programming and is a recent graduate of SOU with a B.S. in Computer Science/Multimedia. He also holds degrees in the applied sciences from Rogue Community College and the U.S. Airforce.

Oneal Latimore holds a B.S. in Anthropology and a B.S. in Emerging Media and Digital Arts with a minor in Education from Southern Oregon University. He is currently teaching technology to youth at Kids Unlimited Academy in Medford, Oregon.

Pravina McClure is a licensed art teacher, and a graduate of two art schools. She has taught K-12 to the university level and uses a creative classical approach to teaching.

Marilyn D. Moore is a Le Cordon Bleu Graduate and a Certified Culinary Educator with the American Culinary Federation. She is the owner of Creative Organic Catering.

Kathy Nguyen is passionate about people and the outdoors! She has a M.S. in Environmental Education and is earning her teaching license in biology. She embraces learning through hands on experiences and explorations.

Jeff Rhoades holds a Master's in Educational Information and Technology and teaches Media Arts at Phoenix High School.

Otis Richardson has been teaching high school Business Education classes for 12 years. He holds a BA and a MA in Education from Southern Oregon University.

Steve Roby has been teaching in the Rogue Valley for 8 years and is a teacher with the Logos Public Charter School. He holds a M.A.T. degree and has a passion for working with youth.

Christopher Rosetta has been teaching for 21 years and has developed a full computer science program in game and mobile app development as well as advanced programming for School District #7 in Grants Pass, OR.

Anna Schatz specializes in test prep and has a background in law and teaching. She is a Rogue Valley native and longtime Portlander.

Dylan Shelton is the local Salle's leading fencer and long-time Southern Oregon Fencing Center Instructor.

Kelly Sosa is an SOU Outdoor Program instructor, youth tennis camp instructor. She is also certified in Wilderness Remote First Aid/CPR and a service dog trainer /instructor.

Althea Sullivan has taught whitewater kayaking at the City of Eugene for the past four summers. She has also lead numerous trips for the SOU Outdoor Program, and was the Whitewater Program Coordinator for two years. She has led hiking, backpacking, rock climbing, snowshoeing, and other outdoor trips and currently a holds Wilderness First Responder certificate, and is pursuing a degree in Environmental Studies.

Ryan Wymore is an Assistant Pro-golfer at the Centennial Golf Club in Medford, OR. He has been through the Professional Golfers' Association of America's (PGA) training program and has taught golf to youth and adults for three years.

Mary Wilkins-Kelly is an artist who enjoys sharing her love of mixed media and photography with her students. She has 19 years of teaching experience.

Wind Woods is a playwright and educator. Currently working on a doctorate in Theatre at UC Irvine, Wind has taught a variety of courses in the performing arts and creative writing fields from K-12 to the university level.

Dana Yearsley is a competitive tennis player, a high school varsity soccer coach, and has taught skiing at Mt. Ashland for over 30 years. She teaches at Willow Wind Community Learning Center and is a farmer for the Rogue Valley Farm School.

REGISTRATION INFORMATION

Classes are open to all interested students. Pre-registration accompanied by FULL payment is required for every class, and classes fill on a first-come basis.

Refund Policy. We will issue a refund (minus a \$25 cancellation fee) if a student withdraws at least two working days prior to the first class meeting.

Cancellations. In the event that a class does not receive sufficient registration to meet the enrollment minimum, the class may be cancelled. If a class is cancelled, we will notify registered students and issue a full refund or credit the cost of the class plus \$10 to the student's account.

Tuition Assistance. Students may request tuition assistance for one program per term. Call 541-552-6452 or check the appropriate box on the registration form. The gross family income that qualifies students is based on Oregon's Income Eligibility Guidelines for Free and Reduced Lunch Program.

Class Size and Waiting Lists. Maximum enrollment for Pre-College Youth Programs classes varies from ten to twenty-five students. If a class fills, we will establish a waiting list and notify students if space becomes available.

Confirmation. Confirmation is sent by email when the student is registered for a class. If you do not have an email account, we will mail you the confirmation. Directions to each class will be included with the confirmation.

TO REGISTER

ONLINE: Visit www.sou.edu/takeaclass and use your VISA or MasterCard.

IN PERSON

Ashland Office: Southern Oregon University Division of Continuing Education, Siskiyou Boulevard (next to Omar's Restaurant).
