

Ashland School District Talented and Gifted Education Procedures Manual

2017

This manual was authored by the Ashland District TAG committee based on outstanding models from districts across the state of Oregon.

It is implemented as of June 2003, as a working draft.

It may be revised periodically to better meet the needs of Talented and Gifted students and the teachers and school community that serve them.

*◆
We wish to acknowledge the work and support of Julie York of Medford school district for sharing generously of her time and expertise.*

PHILOSOPHY AND MISSION

The Ashland School District is committed to identifying and providing for the unique intellectual, social, emotional, and career needs of intellectually gifted and academically talented children in grades K – 12.

It is our goal to ensure that all learners, including gifted learners, are provided stimulating, challenging and meaningful educational experiences with lessons and materials appropriate for each student's assessed level and rate of learning.

Our philosophy fosters educational alternatives in a broader social context promoting:

- High expectations and achievement
- Intellectual stimulation and collaboration
- Academic enrichment
- Social and emotional growth

We acknowledge and support the vital role of the classroom teacher in creating differentiated instruction for the unique needs of exceptional learners within the classroom setting.

District Responsibility for TAG

Listed below are the major requirements for identifying and serving TAG students in Oregon. These are based on the Oregon Administrative Rules and the Oregon Department of Education guidelines concerning appropriate services for TAG students. Oregon Laws and regulations are included in the back of this manual.

- Teachers must document students' rate and level of learning and the assessment used to determine them on an ongoing basis.
- Instruction (modifications based on assessment) that is delivered to students must be documented. Appropriate documentation may include:
 - lesson plan books with notations
 - grade books
 - student contracts
 - anecdotal records
 - portfolios
 - end-of-year PEP progress notations
- Modifications to instruction must be clearly linked to assessment in each academic area. Assessment is based on the specific curriculum of the individual course and is ongoing.
- 100% compliance by all teachers for all identified students is expected.
- Multiple options for students must be provided in order to best meet the learning needs of identified students.
- Enrichment activities should not be offered in place of acceleration.
- The TAG identification process should begin in kindergarten.

Eligibility for Talented and Gifted Services

The following students will be eligible for Talented and Gifted (TAG) services:

- Any student, K-12, screened and identified as TAG in Ashland School District. If there are legitimate, documented concerns about misidentification, a process will be set into place to address this. No student will be removed from TAG status without parental involvement in the above process, nor without parental approval. If transfer to another public or private school interrupts a student's attendance in Ashland School District, s/he should be eligible for TAG services upon re-entering the district.
- Any student, K-12, identified as TAG in another Oregon school district which is operating under the same regulations and with similar eligibility guidelines. A student thus identified will not be required to re-qualify upon entering Ashland School District. Students transferring from out of state will be subject to review by the appropriate TAG school committee to determine their eligibility. Depending on the availability of identification information, including appropriate test scores, students who were qualified out of state may be required to undergo additional evaluation.

Suggested Communication to Parents Concerning TAG Services

In keeping with an effort to inform parents of existing TAG policies and procedures, it is vital that each school develop ways to disseminate information concerning TAG issues.

- Each school should include a statement in their handbook about TAG services. It might read something like:

“Students who test at or above the 97th percentile on specially selected tests may be eligible for Ashland School District’s TAG Program. After being identified based on specific criteria developed by the state, TAG students are placed in a cluster program under the supervision of the classroom teacher. Here they will receive special guidance to work towards their potential, through compaction and/or acceleration of the curriculum, as well as enriching activities. These students learn at a faster rate and at a more sophisticated level. Many TAG students have creative and energetic ideas but lack some of the necessary skills to develop projects that measure up to a high level of competence. The TAG Program is designed to fit these needs.

The Ashland School District complies with the Oregon Talented and Gifted (TAG) Education Act and its administrative rules. These rules apply to all eligible students in our school.”

- Each school may wish to include information in the handbook about:
 - the nature of existing TAG services
 - the name of a contact person for questions regarding the identification process and services
 - how parents may assist/become involved
 - the enrichment programs that are available

- The following should be included in the September newsletter to parents:

“Ashland District schools are in the process of identifying students who are academically talented and/or intellectually gifted. Students can be nominated for the Talented and Gifted Program by one or a combination of the following: national or state test scores (97th percentile or above), teachers, parents, community members, or by self-nomination. After nominations are complete, necessary information will be gathered and a screening committee will screen each student. Additional testing may need to be done. If you wish to nominate your child for this program, please pick up a nomination packet at the school’s office. You may talk with the school’s TAG Liaison, _____(insert TAG Liaison’s name), or the district TAG coordinator, [Current TAG Coordinator], at 482-2811, if you need additional information or have any questions. “

- Use newsletters, parent nights, conferences, back to school nights as possible vehicles to communicate with parents about TAG services and issues. The goal is to keep the parents informed.

Parent Concerns and Appeals Process

The Talented and Gifted Program utilizes an appeals process similar to the District complaint process. If parents or guardians are dissatisfied with their child's identification status and/or the recommended programs and services:

1. They may contact the building principal and submit a written request for reconsideration or additional/alternate services.
2. The principal will acknowledge receipt of the complaint in writing within five working days and arrange to confer with the parents or guardians.
3. The principal will review the identification decision and/or suggested program with the school TAG committee and inform the parents/guardians of the committee's decision and reasoning within ten working days after parent conference.
4. If the parents/guardians remain dissatisfied and agreement cannot be reached at the building level, they may appeal directly to the District TAG Coordinator, who will then review the decisions and recommendations of the school TAG committee and render a final settlement.

In the event of an appeal, the principal has three options:

1. He/She may uphold the decision of the committee. If the committee's decision was consistent with the criteria for the appropriate screening (1st, 2nd, or 3rd), the committee's decision should be upheld.
2. He/She may reverse the decision of the committee and opt for reconsideration. This should be used if:
 - a. The committee's decision was inconsistent with appropriate criteria.
 - b. Additional non-standardized or portfolio-type information indicates a strong possibility that student may be eligible for TAG services
3. Reverse the decision of the committee and identify the student. This option should be exercised ONLY if the student had been identified previously then dropped due to the absence of parent permission slip.

Documentation of Parental Concerns Relating to TAG Services

Name _____ Student's Name _____

Address _____

Phone _____ (day) _____ (evening) Date _____

1. What is the nature of your concern?

2. What action would you like to see taken?

3. If the above action is possible and appropriate, who do you feel should be involved in this action?

4. If the above action is possible and appropriate, what do you think would be a reasonable time line for implementation and completion?

5. What kind of follow-up or documentation would be most helpful to you concerning this problem and the efforts to address it?

Signed _____

TAG Coordinator Duties

DISTRICT TAG COORDINATOR

STAFF DEVELOPMENT

- New teacher training
- PEP / FLEX Plan writing training
- Coordinate professional development opportunities with the Curriculum Coordinator
- Work with building TAG liaisons
- Staff reminders on appropriate TAG procedures and strategies
- Conduct staff trainings on appropriate TAG procedures and strategies
- Assist with individual teachers on TAG modifications and model teaching strategies in the classroom

IDENTIFICATION OF TAG STUDENTS

- Communicate with TAG liaison and principals concerning timelines for nominations, testing, and screenings
- Collect data for and prepare required state reports
- Assist with screening meetings
- Assist schools in maintaining records

PARENT COMMUNICATION

- Communicate individually with parents about individual student needs as needed
- Identify and share regional TAG resources and opportunities
- Attend any conference with TAG parent and teacher if requested
- Provide information for school newsletters

PEP PROCESS

- Design PEP forms which meet the needs of students, teachers, and ODE regulations
- Work with schools, teachers, and principals to ensure quality and that authentic PEPs are being written
- Work with individual teachers to help with PEP writing

FLEX PLANS

- Provide information and/or training in writing appropriate FLEX Plans
- Work with building TAG liaisons, teachers, and principals to ensure quality and authentic FLEX Plans are being written and made available to students and parents
- Work with individual teachers to help with FLEX Plan writing

OTHER

- Update TAG Manual, forms, and policies to meet new standards
- Regular communication with principals and TAG coordinators regarding law, issues of concern, timelines, enrichment opportunities
- Assist individual teachers, parents, and students in finding additional appropriate learning opportunities for TAG students.

BUILDING TAG COORDINATORS

Your most important role as the building TAG Liaison is to advocate in your building for the TAG students and to encourage teachers to offer accommodations to meet the students' rate and level of learning.

IDENTIFICATIONS/SCREENINGS

- Distribute teacher nomination/evaluation forms in the fall and spring
- Distribute list of identified TAG students to teachers serving those students at your site
- Assist as needed with gathering necessary information for TAG screening
- Attend building TAG Screening Committee to review eligibility of nominated students
- Work with district coordinator to schedule individual or group testing as needed and collect other information requested by committee for second screening
- Participate in second screening, when necessary, to review eligibility of students "still being considered"
- Transfer TAG records to the TAG Liaison at the school students will enter in the fall
- Send completed paperwork to district coordinator in a timely fashion after each screening or enter into electronic system
- Maintain/update TAG files located at the building

PERSONAL EDUCATION PLANS

- Using the suggested timelines, distribute PEPs to teachers with a deadline for returning them to you
- Keep track of which teachers have returned PEPs and FLEX plans
- Give completed plans to the principal for his/her review. Quality control is the principal's responsibility, not the TAG liaisons.
- Make one copies of each PEP and FLEX plan. Return approved original to the teacher to be shared with parents during conferences. File the second copy in the students' TAG file.

OTHER

- Attend quarterly TAG Liaison meetings
- Assist in planning/coordinating TAG enrichment activities at your school
- Use teacher meetings as a forum to discuss TAG issues and events
- Facilitate the needs of parents, teachers, and students with regard to TAG issues
- Provide input for TAG expenditures where appropriate
- Communicate through announcements, newsletters, or bulletins regarding TAG activities
- Assume responsibility for knowledge of TAG mandates, etc.

TAG Records

Where are Official TAG Records Kept?

Official TAG Records are kept in a confidential file. If no confidential file exists for an identified student (or a student who has been screened for TAG), one will be created by the building TAG liaison or district TAG coordinator. TAG files are treated in the same way as other confidential files at the school. If the TAG confidential file is stored separate from the student's CUM folder, a BLUE DOT should be placed by the student's name on their CUM folder. This dot will indicate that there is TAG information in a confidential file.

What goes into a TAG file?

- TAG Screening report
- Ability and Achievement Test results used to identify students for TAG (this would include the actual test protocol if available)
- Parent Permission to test and Parent Survey
- Student survey, if used for identification
- Teacher evaluation forms used for identification purposes
- Copies of letters sent to parents
- Current PEP
- Other pertinent information (interview forms, KOI, other screening or program information)
- Letter confirming parent approves of placement in program and has been informed of their rights
- Other letters or information from parents concerning identification or services

What TAG file materials should be transferred out of district when a student leaves?

- TAG Screening report
 - Test results used to identify
 - Parent permission to test
 - Parent survey may be sent if it is current - within three years
 - Most current PEP
 - Copies of letters sent to parents
- ✓ Copy complete folder before transferring originals.
- ✓ In-district transfers: Transfer entire TAG file as you would other in-district transfers.

Step-by-Step Guide for Dealing with TAG Files and Records

Step ONE: Prepare a file for the initial screening. Include:

- ✓ Screening Form - completed with available information
- ✓ Teacher Evaluations
- ✓ Other available information

Step TWO: After First Screening add to the file the following:

- ✓ Copies of permission to test letters and ID letters that are sent to parents
- ✓ All parental forms that are returned, i.e. surveys, permission to serve
- ✓ Other information that was used in screening
- ✓ Add additional information to screening report

Step THREE: After First Screening and when file is complete:

- ✓ For students who have been ID'd:
 - Transfer all information to a confidential envelope and give to school secretary to be placed in school files, make sure cum folder receives “blue dot”
 - Make copies of parent or student survey and screening report for working file
- ✓ For students who are NLBC (No Longer Being Considered) :
 - Transfer all information to a confidential envelope and give to school secretary to be placed in school files
- ✓ For students who are SBC (Still Being Considered):
 - Continue to file information as it comes in, i.e. tests, additional evaluations, surveys
 - Add additional information to screening report

Step FOUR: After Second Screening and when file is complete:

- ✓ For students who have been ID'd:
 - Transfer all information to a confidential envelope and give to school secretary to be placed in school files, make sure cum folder receives “blue dot”
 - Make copies of parent or student survey and screening report for working file
- ✓ For students who are NLBC:
 - Transfer all information to a confidential envelope and give to school secretary to be placed in school files
- ✓ For students who are SBC:
 - Continue to file information as it comes in, i.e. tests, additional evaluations, surveys
 - Add additional information to screening report
 - Files stay with TAG liaison until decision is made

Step FIVE: After Third Screening and when file is complete:

- ✓ For students who have been ID'd:
 - Transfer all information to a confidential envelope and give to school secretary to be placed in school files, make sure cum folder receives “blue dot”
 - Make copies of parent or student survey and screening report for working file
- ✓ For students who are NLBC :
 - Transfer all information to a confidential envelope and give to school secretary to be placed in school files
- ✓ For students who are SBC:
 - Continue to file information as it comes in, i.e. tests, additional evaluations, surveys
 - Add additional information to screening report
 - Files stay with TAG liaison until decision is made

Working files:

Working files for ID'd TAG students should:

- ✓ Include copy of survey - parent and/or student, work samples as needed, and a copy of the completed screening report, copies of PEPs
- ✓ Be kept in a secure place in TAG liaison's room or in the office
- ✓ Be used as a tool for working with teachers, students, or parents
- ✓ Be sent to TAG liaison at new school if transferred. For end for the year (6th and 8th grades) can be sent at end or at the very beginning of next school year

Working files do not need to be kept for SBC or NLBC students.

- ✓ All senior TAG files including NLBC files should stay with their cum file. The school is responsible for keeping these files.
- ✓ Confidential files may go with the cum file or in the confidential file “drawer”. Each school has their own policy. Follow school policy for dealing with confidential files. Office personnel will automatically send on confidential files to the next school.
- ✓ Make sure a “blue dot” is on cum files of ID'd TAG students - particularly important if confidential files are not kept in cum files.

PROGRAMS AND SERVICES

Elementary Schools

Classroom teachers are responsible for meeting the PEP for identified students. Possible ways to address the educational needs of identified TAG students in the regular classroom might be:

- Early Entrance
- Thematic and/or integrated curriculum
- Acceleration of existing curriculum
- Cluster Grouping/ Small Group
- Team Teaching
- Advanced Materials
- Independent Study Project
- Assignment Modification/Differentiation
- Contracts
- Remediation
- Multi-age Classes
- Cross-grade grouping
- Product modifications
- Curricular compacting
- Interest grouping
- Student selected study
- Use of technology
- Higher-level thinking skills and/or complexity, abstractness, and etc.
- Most Difficult First/Compacting
- Enrichment
- Regular Classroom Work
- Other (specify)

Middle School

The CORE teachers will be responsible for meeting the needs of identified students through FLEX plans or individual PEPs, if requested by the parent. Elective teachers may be asked to complete a FLEX plan or a PEP by an administrator on an as needed basis.

TAG programs and services are built upon options already existing within the middle school and include:

<p>Classroom Strategies:</p> <ul style="list-style-type: none"> • Differentiated Instruction • TAG Groups • Cross Graded Instruction • Thematic and Integrated Curriculum • Independent Study • Advanced Math Placement • Southern Oregon On-line School • Access to Mentorships/Internships 	<p>Enrichment:</p> <ul style="list-style-type: none"> • Brain Bowl • Math Team • Science Team • Chess Team • Geography Competition • Spelling Competition • Scavenger Hunt Competition • Competitive Speech • Mail Tribune Media Competition • Advanced TV Production • Student Newspaper and Yearbook • Literature Club • Student Leadership
<p>Activities in the Community:</p> <ul style="list-style-type: none"> • SOU Summer Academy for Talented and Gifted Students • SOU Saturday Academy 	<ul style="list-style-type: none"> • Art Exploration: Schneider Museum Science Labs and Classes: AMSSI Britt Festival summer classes for young musicians

Individual classroom teacher strategies: providing curriculum resources at more complex levels, open-ended problem-solving, student initiated and directed projects, flexible pacing and scheduling, simulations, integrated curriculum, higher level thinking skills such as analysis, synthesis and evaluation.

While TAG programs and Services have been built on options already existing within the middle school, it is important to keep in mind that teachers who have these students in their classes must meet their assessed levels of learning and accelerated rates of learning. This often requires modifications in the instructional program.

High School

Content area teachers will be responsible for meeting the needs of identified students through FLEX plans or individual PEPs, if requested by the parent. Elective teachers may be asked to complete a FLEX plan or a PEP by an administrator on an as needed basis.

TAG programs and services are built upon options already existing within the high school. The programs and aspects of Ashland High School that support TAG students include:

- Self-selected scheduling
- Comprehensive High School
- Wide variety of classes with many upper level (college prep) offerings
- Advanced Placement classes (such as Literature, Composition, U.S. History, Government, Chemistry, Calculus)
- Access to Advanced Placement tests for courses not available at AHS
- Independent Study
- Access to Southern Oregon University classes (11th, 12th grade)
- Access to Mentorships/Internships
- Technical Certifications
- Academic Competitions (Math team, Science team, Brain Bowl, Model U.N., etc.)
- Southern Oregon On-line School classes
- Access to Correspondence courses
- Early graduation
- 2 + 2 college credits through Rogue Community College
- National Honor Society

Individual classroom teacher strategies: providing curriculum resources at more complex levels, open-ended problem-solving, student initiated and directed projects, flexible pacing and scheduling, simulations, integrated curriculum, higher level thinking skills such as analysis, synthesis and evaluation.

While TAG programs and Services have been built on options already existing within the high school, it is important to keep in mind that teachers who have these students in their classes must meet their assessed levels of learning and accelerated rates of learning. This often requires modifications in the instructional program.

Definitions of Terms

ACCELERATION

Student's needs are usually met and accommodated by the teacher providing faster pacing and more advanced content within the regular classroom; may occasionally require moving a student to a more advanced classroom or grade level for all or part of a day.

ACHIEVEMENT TEST

A nationally normed instrument designed to assess the outcomes of school instruction in specific subject areas, e.g., reading, mathematics, etc.

ADVANCED LEVEL MATERIAL

Instructional material from a higher grade level than one to which the child is assigned. Material may be more advanced, abstract and/or complex than usual.

ASSESSMENT

Process whereby information related to a student's instructional level and rate of learning in various curricular areas is determined. It may be a system of data collection used to give information about a student (formal and informal data).

ADVANCED PLACEMENT (AP)

Formal AP curriculum in which high school students can complete a course and take an AP exam for college credit, a student may also be placed in a class more advanced than the student's age.

CLUSTER GROUPING

Groups of five to ten TAG students with similar ability in the grade level population are clustered in the classroom of one teacher. The other students in that class are of mixed ability. If there are more than eight to ten TAG students at the grade level, two or more clusters may be formed. The regular teacher can teach a group of students with the same needs more efficiently. Cluster grouping allows TAG students to spend academic time with their intellectual peers.

COMPACTED CURRICULUM

The amount of time normally required to master a subject is reduced. A pre-test is used to determine current level of mastery.

COMPLEX/ABSTRACT MATERIALS

Materials that require higher levels of abstraction and complex outcomes than regular materials, i.e., original sources that require analysis, interpretation, or evaluation.

CONCURRENT ENROLLMENT

Allows a student to take certain classes at the middle school or high school while obtaining credit in both settings.

CONTINUOUS PROGRESS

Individualized or group instruction based on a student's assessed learning level/rate. Used with pre-post testing or mastery learning models. Students are advanced through materials regardless of grade placement.

CREDIT BY EXAMINATION

Student successfully completes an examination covering course material and receives credit without taking the course.

CRITERION-REFERENCED TEST

A test that is organized by content or instructional objectives. A student's performance on a specific group of test items would indicate whether or not the individual has mastered that given skill. Criterion-referenced tests give information on what the student can and cannot do. These tests can be used in determining current level of performance.

CROSS-GRADE GROUPING

Students may be grouped with students of similar ability in a higher grade. This grouping would be determined subject-by-subject, not for the entire school day.

DIFFERENTIATED ASSIGNMENTS

Assignments are changed to meet a variety of different student needs. The content, the processes and skills, and/or the final product (essay, speech, visual display) may be modified to stimulate higher-order, more sophisticated products.

ENRICHMENT ACTIVITIES

Activities and materials offered outside of the regular curriculum.

FAST-PACED CLASSES

Curriculum is offered at a faster rate than usual. Examples include curriculum compacting or acceleration.

FLEXIBLE GROUPING

After assessment, movement of students among groups is based on readiness and growth within that skill or subject.

HONORS CLASSES

Curriculum offered in greater depth and complexity for students who qualify. Typically for high achieving, motivated students.

INDEPENDENT STUDY/PROJECT

Student may work independently, with teacher guidance, on a project or area of study. The teacher may assign the topic, the student may select a topic from a list of options, or the student may design his/her own project with the teacher's guidance.

IN-DEPTH STUDY

Opportunity to study a specific topic related to curriculum or area of interest more in-depth; may involve a research project connected with an independent study contract.

INDIVIDUAL INSTRUCTION

Instructional rate, achievement level, curriculum content, and depth of exploration based on assessment of individual needs. Student may be instructed individually or in small or large group settings, depending on learning needs. On-going assessment is essential. Give the student instruction with materials that match the individual's specific needs. This may include one-on-one direct teaching and/or self-guiding materials and processes.

MENTORSHIP

The student is paired with an expert in a field of common interest with the student being guided in a project or research.

MULTIPLE INTELLIGENCES

Incorporation of strategies into instruction that allow students to use areas of strength and challenge themselves in areas that are not as strong. Howard Gardner's theory of multiple intelligences includes linguistic, logical-mathematical, spatial, bodily/kinesthetic, musical, interpersonal, intrapersonal, and naturalist.

NO MODIFICATION NEEDED

The current pace of instruction and level of materials are appropriate for the student.

NORM-REFERENCED TEST

Any test in which the score acquires additional meaning by comparing it to the scores of people in an identified norm group. A test can be both norm and criterion-referenced. Most standardized achievement tests are norm-referenced.

OPEN-ENDED INSTRUCTION

Provides opportunities for choice within a framework. Instruction incorporates higher order thinking; more than one "right" way or response may require making connections between disciplines and relating to the "real world."

REGROUPING WITH TAG PEERS

Group students for instruction based on their demonstrated ability to learn content faster and at higher levels of abstraction and complexity. These regroupings may be for an entire unit of study.

STANDARDIZED TEST

Measure which has 1) prescribed instructions to the examinee; 2) scoring based on a set of predetermined rules; and 3) a normative sample to which an examinee's score(s) is (are) compared.

IDENTIFICATION AND SCREENING

Screening Process Flow Chart

Screening Process

Gather Nominations

Teachers, students and parents will be notified that the TAG identification process is underway and nominations are being accepted. Building TAG liaisons should make appropriate nomination/evaluation forms available and set deadlines for receiving nominations.

- Announcements should be made to students using school-approved venues.
- In September or at the beginning of school, school newsletters should include notices to parents.
- Faculty meetings and/ or teacher bulletins should be used to inform teachers.

Develop a TAG Pool for each school

Each school develops a pool of nominated TAG students in the fall of each year. The pool includes the following:

- Students nominated by teachers.
- Students nominated by parents, community members, or self-nominated.
- Students whose most recent academic tests (SmarterBalanced, EasyCBM) show (total) math or (total) reading performance at or above the 97th percentile nationally.
- Transfer student scores at or above the 97th percentile on other nationally standardized tests in (total) math or (total) reading shall also be included.
- Students whose most recent intelligence/ability tests (Raven/CogAT) show performance at the 97th percentile or above.
- Transfer student scores at or above the 97th percentile on a nationally standardized intelligence/ability test shall also be included.
- Transfer students identified as talented and gifted in another state.
- Any student who is “still being considered” from the previous year’s screening process.

Note: A student previously screened and found ineligible for TAG services may be re-screened in a new category (Academically Talented, or Intellectually Gifted) or IF new information indicating eligibility emerges, such as a new qualifying test score.

Distribute Teacher Evaluation Forms

Building TAG liaisons should distribute or make available evaluation forms for nominated students and set a deadline for having them returned. The forms should be distributed as follows:

- For students in grades K-5 - Current classroom teacher and last year's if available
- For students in grades 6 -12 - At least three teachers, including the student's current or most recent Math and/or English/Language Arts teachers. If a student's test scores indicate talent in math or reading, it would also be appropriate to give an evaluation form to the previous year's teacher in that area. It would be acceptable to send it down to the previous school when applicable. Make your best judgment on which teachers (past and present) would be most valuable in terms of area of nomination.

Assemble TAG Screening Folders

A TAG Screening Folder will be made for each student nominated. Please include:

1. TAG Screening Form
2. Parent Survey and/or Self-Assessment Form, if available.
3. All teacher evaluation forms
4. Other information which could be important to the committee, such as the **Raven**, out-of-grade-level test scores, state assessments or special class placements

Form TAG Screening Committee

Regardless of the information collected about an individual student, no decision regarding identification can be made by a single person. Each school will convene a TAG Screening Committee to review screening information about nominated students. In most cases, the Child Study Team (CST) or Student Study Team (SST) serves this purpose. The Committee should be aware of eligibility criteria and the screening process.

- Purpose: To determine whether or not individual students are eligible for TAG services by reviewing the students' TAG Screening Folders.

Members: The Screening Committee will include the building TAG liaison, the principal, and at least one other certified teacher along with the district TAG coordinator or designee.

Identification Criteria

No student shall be identified based on a single criteria, such as a test score. Conversely, no student shall be disqualified based on a single criteria. The following criteria shall constitute the minimum required to identify a student for TAG services:

1. At least TWO indicators of giftedness, which must include one of the following:
 - a standardized group intelligence/cognitive ability or achievement score at the 97%ile or above
 - a standardized individual intelligence/ cognitive ability or achievement score at 97%ile or above (requires parent permission)

2. The second indicator may include one or more of the following:
 - a second group or individual test score
 - strong evaluations by teachers
 - strong indicators of giftedness from the KOI or similar instrument
 - evidence of superior academic performance, e.g. grades (Academically Talented only)

3. For Non-typical identification (also known as “Potential to Perform”):
 - high group standardized tests or individual standardized test scores
 - for English Language Learners (ELL), standardized test scores in a nonverbal intelligence test such as the Raven or in English and the student’s native language which, when considered together, would place the student in the 97%ile of ELL or bilingual students
 - for other non-typical nominees, such as: students from ethnic minorities, students with disabilities, and students who are culturally different or economically disadvantaged, additional evidence, such as a student self-assessment or parent survey, may be considered in combination with other criteria
 - screening reports for non-typical students who are identified without a 97%ile score should include a description of:
 - a) why standardized test scores would not be reliable indicators for this student

 - b) what indicators the committee used instead to identify the student

Notification of Parents

If committee requests individual testing outside the tests or groups designated annually:

- Letter is sent home advising parent that student has been nominated and requesting permission to test

If student is identified: Letter is sent home to parents notifying them of committee decision. Letter is to include the following enclosures:

- a brochure explaining Ashland's gifted education philosophy and services
- a parent survey that can be used by your child's teacher(s) to help plan appropriate services (In the cases where permission to test has been requested, this survey will already have been sent home)
- a letter explaining the complaint procedure for alleged standards violations
- a Student Informational Profile (elementary only)
- a parental acceptance of TAG services form. This form must be returned before identification will be finalized.

If student is not identified: If parent permission for individual testing had previously been given, letter is sent home advising parents of committee decision and their right to appeal. If no permission to test was requested, no letter is needed.

Maintenance of Records

When the screening process is complete and all information will be copied and place in the student's confidential folder in the school office. At this point the screening information becomes an official TAG file.

Official TAG File

An official TAG file will be created for all identified students and all no longer being considered (NLBC) students. Records used for identification will be placed in a confidential envelope. These records will include teacher evaluations, parent permission to test, copies of letters to parents, test information, and permission to serve for identified students. These confidential files will be managed in the same way as other confidential files in the building.

A small blue dot, indicating TAG identification or consideration can be placed on the students' CUM file. This is a reminder to the secretary that the student has information in a confidential file. If confidential files are kept with the CUM files, no blue dot is necessary.

Other TAG information may be kept in a TAG working file in a secure location for the convenience of the TAG liaison and students' teachers. This could include copies of a student's PEPs, copy of the parent survey, copy of student self-assessment, interview responses, and a photocopy of the TAG Screening Report. The purpose of this file would be to have ready access to information that could be helpful to teachers.

Still Being Considered (SBC) Files

All information on students who remain in the SBC category will remain in a screening folder in the school office. These students will continue to remain in the TAG Pool until such a time as they are identified or no longer being considered.

FIRST SCREENING

For students who were flagged by test scores or nominated by teachers, self, or parents during the nomination process.

Procedures

- The TAG Liaison presents information that has been gathered on each student who has been nominated. The committee will work to reach a consensus. When a consensus is not possible, an administrator will make the final determination based on the available evidence. Committee makes one of three decisions: identify, leave as still being considered (SBC), or place in the no longer being considered category (NLBC).
- The individual screening report will be completed at the screening.
- All members of the TAG Screening Committee should sign the top page of the group screening report.
- Set 2nd Screening date before adjournment.

To ID as TAG Academically Talented in one of these categories:

- Academic Reading (97th %ile+ in total reading)
- Academic Math (97th %ile+ in total math)
- Academic Reading and Math (97th %ile + in both reading and math)
 - A student must have two clear indicators of performance: one of which should be an achievement test in area(s) of identification - scored in the 97th %ile or greater.
 - Other indicators: G.P.A. is 3.5 or higher and/or a recommended evaluation from teacher(s).

To ID as TAG Intellectually Gifted

- A student must have scored in the 97th %ile or above on cognitive abilities test.
- Received a recommended evaluation from teacher(s).
- An intellectual identification can be done alone or in combination of any of the academic identifications.

Still Being Considered - SBC

- Students who have at least one clear indicator and reasonable expectation that there will be a second.
- Committee will make a decision about what indicator is needed.

No Longer Being Considered - NLBC

- Student does not have two indicators to identify and does have at least two indicators that show evidence that additional information gathering would not be beneficial.

BUILDING TAG LIAISON RESPONSIBILITIES AFTER FIRST SCREENING

- ✓ File completed ID'd files in the building office and provide a list to office administration for entry into the Student Information System.
- ✓ Set testing dates and arrange location in the school.
- ✓ Schools using FLEX Plans - Distribute list on newly identified students to teachers and remind teachers to give these students copies of the FLEX Plans.
- ✓ Send appropriate letter, complaint procedure, notification document, and parent survey to parents notifying them of identification.
- ✓ For students who need individual testing or other information gathered, send letter and parent survey to parents notifying them of nomination and requesting permission for testing.
- ✓ Send PEPs to teachers.
- ✓ Make copies of all letters and put in student files.
- ✓ Send reminder letters to parents who have not answered permission request within a reasonable time period.

SECOND SCREENING

For students who were Still Being Considered after the first screening.

Procedures

- Each TAG Liaison presents information that has been gathered on each student. Committee votes on each student. The committee will work to reach a consensus. When a consensus is not possible, an administrator will make the final determination based on the available evidence. Committee makes one of three decisions for SBC students: identify, leave as still being considered (SBC), or place in the no longer being considered category (NLBC).
- Fill out the individual screening report (blue) as you go along.
- All members of the TAG Screening Committee should initial the top page of the group screening report.
- Set 3rd Screening date before adjournment.

To ID as TAG Academically Talented in one of these categories:

A student must have two clear indicators of performance: one of which should be an achievement test in area(s) of identification - scored in the 97th %ile or greater.

- Exception to the test score - Non-typical students
- Other indicators may be one or more of the following: High Teacher Evaluations, Parent Survey, G.P.A., Student Self-Assessment, Report Cards, KOI Results

To ID as TAG Intellectually Gifted

- A student must have two clear indicators of intellectual ability one of which must be a test score in the 97th %ile+ on test of intellectual ability such as Raven or CogAT.
- Other indicators may be one or more of the following: High Teacher Evaluations, KOI results, Parent survey, Student Self-Assessment.

Still Being Considered – SBC

- Students who had at least one good indicator and additional information that shows promise. Students that are SBC at this point would probably be non-typical students who need some special additional testing or information gathered.
- In some cases students would be left as SBC at this point in order to wait until the next round of district testing.

No Longer Being Considered - NLBC

- Student does not have two indicators but does have two indicators that TAG identification would not be appropriate.

RESPONSIBILITIES OF BUILDING TAG LIAISON AFTER SECOND SCREENING

- ✓ Send completed ID'd files to building office
- ✓ Set any additional testing dates and arrange location in the school.
- ✓ Buildings using FLEX plans - Distribute list of newly identified students to teachers and remind teachers to give copy of FLEX Plan.
- ✓ Send appropriate letter, complaint procedure, notification document, and parent survey to parents notifying them of identification.
- ✓ For students who need individual further testing or other information gathered, send letter and parent survey to parents notifying them of status.
- ✓ For students who did not qualify and who had additional testing, send letter to parent notifying them of committee decision.
- ✓ Send PEP forms to teachers.
- ✓ Make copies of all letters and put in students' files.

THIRD SCREENING

For students who needed additional testing.

Repeat above process. Consider the additional information that you have gathered to either identify the student or place in the NLBC category. Any students who are still being considered at this point should have a letter send home that informs parents of the decision and the goals to further evaluation.

Screening Non-typical TAG Nominees

Some Supplemental Tools

Subjective data from a variety of sources must be considered in the screening process to identify students from non-typical populations. All of the suggested supplemental screening tools are presently available through the District Special Services Office or SOESD.

English Language Learners	Economically Disadvantaged, Ethnic Minority, Disabled, or Culturally Different
<ul style="list-style-type: none"> ▪ Native Language Standardized Tests (Spanish)* Language Assessment Scale (LAS) Academically Talented in Reading or Math Woodcock-Muñoz Academically Talented in Reading Bilingual Statewide Assessment in Math Academically Talented in Math ▪ Nonverbal Intelligence Tests Ravens Matrices UNIT ▪ Classroom Observation Instruments Kingore Observation Inventory (KOI) (K-8) Klamath Falls “Initial Screening Checklist” (includes non-typical characteristics) ▪ Individual Observation Inventories Behavioral Checklist (Grades 1-2) Purdue Academic Rating Scales (Grades 7-12) Peer and Student Self-Assessment Inventories ▪ Interviews with Student, Parent, and/or former Teachers “Creative Collaboration” Interview Forms 	<ul style="list-style-type: none"> ▪ Peer and Student Self-Assessment Inventories ▪ Alternative Intelligence Tests Ravens Matrices ▪ Classroom Observation Instruments Kingore Observation Inventory (KOI) (K-8) Klamath Falls “Initial Screening Checklist” (includes non-typical characteristics) ▪ Individual Observation Inventories Behavioral Checklist (Grades 1-2) Purdue Academic Rating Scales (Grades 7-12) ▪ Interviews with Student, Parent, and/or former Teachers “Creative Collaboration” Interview Forms

The above tools used to determine TAG eligibility should be considered in combination with more traditional screening tools. Students in the above non-typical categories should be given additional opportunities, above the traditional screening tools, to qualify as TAG when other factors indicate a reasonable chance of eligibility.

Bilingual students, those with a level of proficiency in both English and their native language, need *not* score at the 97th %ile on a reading test in *one* of their languages. These students often have some specialized vocabulary in one language, perhaps from English-language science classes, and some in their native language, perhaps words about family activities. If the combination of the two scores indicates a language gift, they may be identified as Academically Talented in Reading.

One way to determine this would be using the following chart to determine minimum scores for identification of bilingual students who have otherwise “normal” schooling histories (attending school consistently, appropriate placements, etc.):

Native Language Reading Test Score	English Language Reading Test Score	Native Language Reading Test Score	English Language Reading Test Score
<i>Above 95%ile</i>	<i>Any score</i>	<i>Any score</i>	<i>Above 95%ile</i>
<i>92%ile - 95%ile</i>	<i>Above 50%ile</i>	<i>Above 50%ile</i>	<i>92%ile - 95%ile</i>
<i>87%ile - 91%ile</i>	<i>Above 70%ile</i>	<i>Above 70%ile</i>	<i>87%ile - 91%ile</i>

Ashland School District Talented and Gifted Education Teacher TAG Nomination and Evaluation Form

Student _____ Grade _____ Date _____

Teacher _____ Class _____

The information on this form will be used by the TAG Screening Committee in the initial screening process for the Talented and Gifted Program. Using a 6-point scale, thoughtfully rate your impression of the student relative to the following item descriptors. After you have done this, please answer the questions that follow to the best of your ability. Finally, make your recommendation for this student as it concerns TAG identification. Feel free to make any comments that you feel would be helpful to the screening committee.

When rating each item, think about the student in the following way:

- ✓ When compared to average students of the same age the student is **below** average (circle 1 or 2) in...
- ✓ When compared to average students of the same age the student is **average** (circle 3 or 4) in...
- ✓ When compared to average students of the same age the student is **above** average (circle 5 or 6) in...

Section One

Using/understanding advanced vocabulary	1	2	3	4	5	6
Reading interest, fluency, and ability	1	2	3	4	5	6
Reading more difficult books	1	2	3	4	5	6
Reading non-fiction	1	2	3	4	5	6
Possessing a large storehouse of information about a variety of topics	1	2	3	4	5	6
Recognizing author's or speaker's point of view, mood, or intentions	1	2	3	4	5	6
Expressing him/herself through a variety of communicative skills	1	2	3	4	5	6
Enjoying independent study and researching areas of interest	1	2	3	4	5	6
Paying attention to details; elaborating	1	2	3	4	5	6
Being a keen and alert observer; usually "seeing more" or "getting more" out of a story, film, etc.	1	2	3	4	5	6
<i>Please add up the scores in each column and then add the totals in all column sections. Total _____</i>						

Section Two

Learning math concepts and processing faster than other students	1	2	3	4	5	6
Organizing data to discover patterns and relationships	1	2	3	4	5	6
Enjoying trying to solve difficult problems; liking puzzles and logic problems	1	2	3	4	5	6
Solving problems intuitively (may not be able to explain why solution is correct)	1	2	3	4	5	6
Being interested in numbers and quantitative relationships	1	2	3	4	5	6
Visualizing spatially, creating visual images of problems	1	2	3	4	5	6
Needing little practice to master new math concepts	1	2	3	4	5	6
Developing unique associations, using original methods for solutions	1	2	3	4	5	6
Recalling relevant information/concepts in solving problems, recognizing the critical elements	1	2	3	4	5	6
Analyzing problems carefully, considering alternatives, not necessarily accepting first answer	1	2	3	4	5	6
<i>Please add up the scores in each column and then add the totals in all column sections. Total _____</i>						

Section Three

Trying to find the how and why of things; displaying a great deal of curiosity about many things	1	2	3	4	5	6
Asking provocative, insightful questions	1	2	3	4	5	6
Liking to do many things; having a wide range of interests; showing passion about interests	1	2	3	4	5	6
Connecting new learning to previously learned material to make it meaningful	1	2	3	4	5	6
Exhibiting special skills unusual for age	1	2	3	4	5	6
Exhibiting a wide variety of learning techniques	1	2	3	4	5	6
Showing intuition; having “leaps of understanding”	1	2	3	4	5	6
Becoming absorbed in a task or problem until completion	1	2	3	4	5	6
Comprehending abstract ideas with minimal concrete experience	1	2	3	4	5	6
Having a high level of enthusiasm and alertness for some activities	1	2	3	4	5	6
<i>Please add up the scores in each column and then add the totals in all column sections. Total _____</i>						

Section Four

<i>These attributes should not be viewed as either negative or positive. Please check the appropriate box.</i>	Rarely	Sometimes	Often
Sees humor in situations others may not see; understands puns			
Is very sensitive toward people and issues			
Quite concerned with right and wrong, good or bad			
Can be self-assertive; stands up for his/her beliefs			
Individualistic; non-conforming			
Believes the process is more important than the final product			
Self-critical and often dissatisfied with own effort and product			

Please answer the following questions to the best of your knowledge:

Does this student:

lack proficiency in English?	yes	no
qualify for free or reduced lunch?	yes	no
belong to an under-represented ethnic group?	yes	no
have irregular school attendance?	yes	no
have any physical disability that may interfere with learning?	yes	no

In your opinion, how should the TAG Screening Committee proceed with identification: (Check all that apply)

From everything I know about this student and have seen demonstrated in the classroom:

- I recommend TAG identification in mathematical abilities.
- I recommend TAG identification in reading abilities.
- I recommend TAG identification in intellectual abilities. *(May or may not translate into high classroom performance)*
- I do not recommend for identification in any area.

Please make additional comments that may be helpful; may include information about grades in your class.

Ashland School District Talented and Gifted Education

Parent TAG Nomination Form

Student _____ Grade _____ School _____
 Parent(s) _____ Date _____

The information on this form will be used by the TAG Screening Committee in the initial screening process for the Talented and Gifted Program. Please thoughtfully respond to the following ideas concerning your child's abilities and skills by checking the appropriate box. You are free to skip any question that does not apply to your child, one that you would prefer not to answer, or one for which you are unsure of the response.

Section One	Rarely	Sometimes	Usually
Uses and understands advanced vocabulary			
Interested in reading, shows good fluency and ability			
Enjoys reading more difficult books			
Reads non-fiction			
Possesses a large storehouse of information about a variety of topics			
Recognizes author's or speaker's point of view, mood, or intentions			
Expresses self through a variety of communicative skills			
Enjoys independent study and researching areas of interest			
Pays attention to details; elaborates			
Is a keen and alert observer; usually "sees more" or "gets more" out of a story, film, etc.			
Section Two	Rarely	Sometimes	Usually
Learns math concepts quickly and easily			
Organizes data to discover patterns or relationships			
Enjoys trying to solve difficult problems; likes puzzles and logic problems			
Solves problems intuitively (May not be able to explain why the solution is correct)			
Is interested in numbers and quantitative relationships; sees usefulness of applications of mathematics			
Visualizes spatially, creates visual images of problems			
Needs little practice to master new math concepts			
Develops unique associations; uses original methods for solutions			
Recalls relevant information or concepts in solving problems			
Analyzes problems carefully; considers alternatives, not necessarily accepting first answer			

Section Three	Rarely	Sometimes	Usually
Tries to find the how and why of things; displays a great deal of curiosity about many things			
Asks provocative, insightful questions			
Likes to do many things; has a wide range of interests; shows passion about hobbies / interests			
Connects new learning to previously learned material to make it meaningful			
Exhibits special skills unusual for age			
Exhibits a wide variety of learning techniques			
Shows intuition; has “leaps of understanding”			
Becomes absorbed in a task or problem until completion			
Comprehends abstract ideas with minimal concrete experience			
Has a high level of enthusiasm and alertness for a variety of activities			

Please answer the following questions to the best of your ability. Your answers will help guide the screening committee as they consider other evaluations and test scores.

Does your child:

lack proficiency in English?	yes	no
have any physical disability that may interfere with learning?	yes	no
become impatient if his/her work is imperfect?	yes	no
generally feel satisfied with his/her progress in school?	yes	no
have lots of homework?	yes	no
frequently complain about being bored?	yes	no

In your opinion, how should the TAG Screening Committee proceed with the identification? (Check all that apply)

- TAG identification in mathematical abilities
- TAG identification in reading abilities
- TAG identification in intellectual abilities (*may or may not translate into high classroom performance*)

What else would you like the Screening Committee to know about your child?

Please take this nomination to your child’s school **or** mail it to:
 Talented and Gifted Education
 Ashland School District
 885 Siskiyou Blvd.
 Ashland, Oregon 97520

Ashland School District Talented and Gifted Education
Student TAG Self-Nomination Form

Name _____ **Date** _____

School _____ **Age** _____ **Grade** _____

Please answer the following questions about yourself to help us understand you as an individual and as a learner. This information will be used by the Screening Committee to help determine eligibility for TAG services and if you are identified for TAG it may also be used to help teachers plan for any modifications that may be necessary to accommodate your rate and level of learning.

What hobbies or special interests do you have?

What accomplishment are you most proud of? Why?

For what reasons do you read? Describe some books or other materials you enjoy reading.

What are your strengths as a student?

What are your weaknesses as a student?

If you were a teacher, what would you feel is the most important thing you could do for your students?

Do you feel you are different from other students in your classes? If so, how?

What are your expectations for your future (after high school)?

What would help you to gain more from your school experience?

How would being identified as a TAG student benefit you?

What else would you like us to know about you?

Please answer ONE of the following questions on a separate sheet of paper:

- a. What is the cover story for TIME or NEWSWEEK magazine dated July 2010? Give a summary of the article.
- b. What might a reader find on page 95 of **your** autobiography?
- c. What three people (past or present) would you invite to a dinner party and why?
- d. What items do you own that tell the most about you as an individual?

I wish to be considered for the Talented and Gifted Program. I understand that the TAG Screening Committee's decision will be made based on a variety of information sources, including test scores, parent evaluations, this self-evaluation, and teacher evaluation(s). I also understand that even if I am not found eligible for TAG this year, new information might cause the Committee to reconsider me later.

Confidential Information Form**

MEMO: Confidential Information

To:

From:

Subject

Date:

The TAG Screening Committee has recently identified the following students as talented and gifted:

Student	Grade	Reading	Math	Intellectual	Potential to Perform

This identification was based on test scores and behavioral information from teachers and/or parents. If you have one or more of these students, please make sure they are given a copy of your FLEX Plan and told to take it home to share with parents. Regardless of the type of identification, State law requires that we assess rate and level of learning in all major curricular areas and offer modification to the regular curriculum as necessary.

If you have any questions, please see me.

Thank you,

[Place on letterhead]

Notification of Nomination Letter

Dear Parents:

Your child has been nominated for evaluation to determine eligibility for Talented and Gifted (TAG) services. This nomination was based on the following:

- | | |
|--|--|
| <input type="checkbox"/> Raven Matrices | <input type="checkbox"/> Oregon Statewide Assessment tests |
| <input type="checkbox"/> Teacher nomination | <input type="checkbox"/> Level tests |
| <input type="checkbox"/> Parent nomination | <input type="checkbox"/> TESA (computerized OSA) |
| <input type="checkbox"/> Self nomination | <input type="checkbox"/> Other _____ |
| <input type="checkbox"/> Community member nomination | |

The state's criterion for TAG eligibility includes at least two strong indicators of giftedness including scores at the 97th percentile level or above on a test of academic achievement for either reading or math and/or on a cognitive ability (intelligence) test.

If you wish your child to be tested for TAG eligibility, you must complete the attached Parent Permission form. Please return the form by _____. Shortly after this date, the testing schedule will be set. Your child will be tested sometime between receiving the signed permission form and the date when the TAG Screening Committee will meet. This date is mentioned below. The testing process may take longer than anticipated due to the high number of students being tested. No student will be tested unless the attached permission form is on file.

In the administration of this test(s), every effort will be made not to interrupt your child's daily schedule more than necessary. Qualified personnel will administer the test(s) at the school your child attends.

If you do not wish your child to be tested for the TAG Program, please indicate by completing and returning the attached form. If you choose not to have your child considered at this time, this will NOT eliminate your child from consideration at some future point.

You will be notified by mail when the TAG Screening Committee reaches a decision regarding your child's eligibility. The TAG Screening Committee will meet on the following date to make that decision: _____. You and your child have certain rights regarding the TAG identification process. It is very important that you read and understand the following:

- You have the right to review all records related to this evaluation.
- You have the right to refuse permission to evaluate.
- If you disagree with the evaluation results, you have the right to appeal.
- You have the right to review all procedures used.

All information in your child's TAG evaluation file will be maintained as confidential information but may be used for evaluating and planning his or her educational program.

If you have any further questions concerning testing or identification, please call [Current TAG Coordinator], District TAG Coordinator at 482-2811.

Sincerely,

Ashland School District Talented and Gifted Education
Permission to Evaluate Form

Ashland, OR 97520**

PART I - Permission to Evaluate

Your signature below indicates PERMISSION to conduct an evaluation of the above child's eligibility for the Ashland School District's TAG Program using one or more of the following tests:

- KOI (Kingore Observation Inventory)
- KBIT (Kaufman Brief Intelligence Test)
- Raven Matrices (Non-verbal Cognitive Assessment)
- WOODCOCK Johnson (Cognitive Ability Test)
- WOODCOCK Johnson (Test of Mathematical Achievement)
- WOODCOCK Johnson (Test of Reading Achievement)
- Other _____

Parent Signature _____

Date _____

Comments (Optional): *Please include any information about your child that you feel would be relevant to the evaluation process.*

PART II - Please Do Not Evaluate

Your signature below indicates that **YOU DO NOT WANT** your child to be evaluated for the Ashland School District's Talented and Gifted Program at this time.

Parent Signature _____

Date _____

Comments (optional):

[Place on letterhead]

2nd Request - Permission to Evaluate

To the parents of _____ Date _____

Your child was recently nominated to be evaluated for our Talented and Gifted Program. This evaluation has not taken place because we have not received the parental permission form to do the necessary testing. If you would like us to evaluate your child, please complete the permission form you were sent and return it to the above address by _____. If we do not hear from you by that time, we will assume you do not want your child to be evaluated for TAG identification at this time.

If you have any further questions, or need an additional copy of the permission form, please contact the TAG office at 482-2811.

Sincerely,

TAG Liaison

Notification of Eligibility Letter

To the parents of _____ Date _____

An Ashland School District Talented and Gifted (TAG) Screening Committee has completed an evaluation of your child's educational needs. Based on this evaluation, the committee has determined that she or he IS ELIGIBLE for TAG identification. According to the criteria used in Ashland School District, she or he has been identified as:

- Intellectually Gifted
- Academically Talented in Math
- Academically Talented in Reading
- Potential to Perform

TAG services are designed to accommodate the student's needs, especially regarding individual rates and levels of learning. Your child's teacher will soon be preparing a Personalized Education Plan (PEP) that will explain how your child's rate and level of learning will be met in the regular classroom. Your input can be invaluable in the PEP process, so please feel free to contact the teacher with any information, perceptions, or recommendations you can share. The enclosed Student Profile Form can be used as tool to help with this process. Additional opportunities for TAG students and other students desiring more challenge are available at the school. These opportunities will be explained at future TAG Parent Meetings, through the TAG Parent Newsletter, and through school newsletters.

Enclosed are the following:

- a brochure explaining Ashland School District's gifted education philosophy and services
- a parent survey. The information on this survey will be used by your child's teacher to help plan appropriate services. (Not included if already on file)
- a student profile form that gives parents an opportunity to share educational needs and which will be used by the teacher when writing the PEP
- a letter explaining the complaint procedure for alleged standards violations
- a parental acceptance of TAG services form **which must be returned before identification will be finalized**

If you have any questions about TAG services, please feel free to call _____ at _____ or the district TAG coordinator, [Current TAG Coordinator] at 482-2811.

Sincerely,

[Current TAG Coordinator]

[Place on letterhead]

Notification of Non-Eligibility Letter

To the parents of _____ Date _____

Using our District's criteria for TAG identification, an Ashland School District Talented and Gifted (TAG) Screening Committee has recently completed an evaluation of your child's educational needs. Students are considered for TAG services based on recommendations by teachers, parents, and/or exceptional standardized test scores. Your child's abilities and/or potential placed him/her in the relatively small numbers of students who are considered each year for the TAG Program. However, based upon the criteria of our District, which is accordance with the policies of the state, it was determined that, at this time, your child is not eligible to receive TAG services.

Oregon mandates that districts identify students who are at or above the 97th percentile in nationally normed tests of mental abilities or academic abilities in math and/or reading. Additionally, the State mandates that there must be two clear indicators to either identify or not identify. This means that no one single test score would be used as the criteria. As you can see, the identification criteria are fairly stringent.

I wish to thank you for your assistance in the screening process and to assure you that our District recognizes that many students have gifts other than those specifically targeted in our identification process. For this reason, most gifted education services are open to any students eager to take on more challenges. Please watch in the school newsletters for these opportunities. You are also free to contact me for a description of those services.

You have the right to review all records related to this evaluation. You also have the right to review all procedures used. If you disagree with the Committee's decision, you have the right to appeal. Please contact me if you have any questions or concerns about your student or the evaluation process.

Sincerely,

[Current TAG Coordinator]
District TAG Coordinator

Read each of the statements below. Think about yourself. Finish the sentences as you think about what you are like and how you feel about things. You may leave a sentence blank if you can't think of anything to write or do not want to answer a question.

1. I seem to learn new things quickly. One example is:

2. I understand and can use "grown-up" vocabulary. Some of my favorite words include:

3. I have been told I ask interesting or unusual questions. An example of the kind of questions I ask would be:

4. I like to collect unusual things or I organize my collections in unusual ways. One thing I collect is _____ . It is unusual because

5. I seem to be able to figure out answers to problems that come up in the classroom or on the playground when no one else can. One time I figured out

6. I do not like to be interrupted when working on something interesting, especially when I am working on

7. One interesting or unusual idea I had recently was

8. I like to make up and tell jokes or puns. My favorite joke or pun is

9. Instead of practicing spelling words and math facts that I already know, I would rather be

10. A story that I have written that I am proud of was about

11. I care about other people's feelings and like things to be fair. For example, it makes me unhappy if

12. One of my favorite books is _____ because _____

13. If I could teach a math class for a day I would help students understand how to

14. I really like it when my math teacher lets me

15. I like to design and complete science projects. One project that I have done was about _____ . The next project I am thinking about doing is going to be about

16. I have been told that my reports or projects are very good. One that I am proud of was about _____ . The thing that made it interesting was

17. If I don't know how to do something, I usually

18. One thing that I really want to learn about is

19. One thing that I really know a lot about is

20. One thing that is different about me than other kids in my class is

21. I would really like to be a _____ when I grow up because

22. One thing I would like to do to help the world would be to

23. Something else that I would like you to know about me is

Student Self-Evaluation - Secondary Form

Student Name _____ Grade _____ Date _____

Please take a few minutes to answer the following questions. This information you provide may be shared with teachers to help them meet your learning needs. You may leave questions blank if they are not appropriate for you.

1. What kinds of class activities do you enjoy the most? Why?

2. What kinds of class activities are most frustrating for you? Why?

3. Are there subjects or topics in which you feel you receive more instruction than you need and are required to practice skills more than necessary?

4. In which subjects do you feel you could successfully move at a faster pace?

5. What subjects or topics would you like to learn more about?

6. When you have a big project to do, what parts of it do you like the most and what parts do you like the least?

Most? _____

7. In which subjects do you think you learn FASTER than the regular pace of the class?

8. In which subjects do you think you learn SLOWER than the regular pace of the class?

9. If you had a choice between more challenging work that makes you think or easier work you could finish quickly and earn an easy "A" on, which would you choose?

Why?

10. Which do you think is a better indication of the kind of student you are, tests or homework?

Why?

11. If you had to describe yourself in less than fifty words, what would you say?

Complete the following statements.

1. When I get interested in a project, I

2. I am an expert on

3. The hardest part of school for me has always been

4. My "dream" career would be

5. The world would be a far better place if

Parent / Guardian Survey Form

Name of student _____ Age _____ Grade _____

Name of Respondent _____ Relationship to student _____

Thank you for taking the time to fill out this survey. All information on this form will be made available to the student's teacher(s) in order to better plan for your TAG student's needs. If you have extremely sensitive insights or concerns regarding your child, please share that in oral or written form with the principal, teacher, or TAG liaison. Those concerns will be kept in the student's confidential file, stored in the school office. You may choose to not answer any of these questions, as the return of this survey is not required for TAG identification.

What are your child's favorite subjects?

What are his/her interests, hobbies and/or collections?

What are some things that your child does well?

What are some things that are difficult for your child?

What are some things your child enjoys spending long periods of time working on?

How well does your child do in school?

How well does your child like school?

On a scale of 1 (low) to 5 (high), how self-directed is your student? _____

If you could improve school for him/her, what would you do?

Are there any areas, including math and language arts, that you think might need to be more challenging and/or move at a faster rate?

If s/he had the chance, what would your child like to learn about?

What special lessons, training, or learning opportunities does your child have outside of school?

What are your child's reading interests?

About how much does your child read each week?

What is a recent book your child has read and/or enjoyed?

Please describe your child as you see him/her (personality, attitudes towards home, work, friends, etc.)

What are some things you think are important for your child's success in school?

What do you expect of a school program for gifted and talented students? What would you like to see your student accomplish as a result of participating in a gifted and talented program?

Parental Consent for TAG Services Form

(This form must be signed and returned for the identification process to be complete and services to begin)

I hereby acknowledge that I have received notification that my child is eligible for Talented and Gifted Services through Ashland School District . I understand that the services will involve assessment of rate and learning needs in the core curricular areas and modification to the curriculum as necessary based on those assessments. I understand that whenever possible those rate and level learning needs will be accommodated in the regular classroom but that the individual needs of each TAG child will determine the necessary steps to ensure that appropriate educational opportunities are being offered. I also understand that my child will have opportunities to participate in various enrichment activities as provided by the school and the district.

I understand that at the Elementary level a Personal Education Plan (PEP) will be written for my child that will address rate and level of learning and modifications that may be necessary. I understand that I will be given opportunity to participate in that plan. For secondary students a FLEX Plan is written by all core teachers that will address assessment of rate and level of learning and modifications that will be offered to students who need an advanced or accelerated program.

I understand that I may have input into any educational plan that is offered to my child. At any time I may make an appointment to meet with my child’s teacher (s) to discuss his or her educational needs. I have been given a copy of AR 8810 that explains the process for filing an official complaint with the school district if I feel that the necessary steps to meet the rate and level of learning needs of my child are not being taken.

TAG Student Observation Profile

for Parents of Identified TAG Students

Your child's teacher will assess the educational needs of your newly identified TAG student in the core curricular areas. After this initial assessment process is complete, the teacher will plan for and implement any modifications to the curriculum that may be necessary and write a Personal Education Plan (PEP). A copy of this plan will be sent to you within three weeks of the time of identification. As a parent you have a unique view of your TAG child's abilities, interests, and needs as a learner. Sharing these insights with the classroom teacher will be a valuable tool in planning how best to meet the needs of your child. **If you would like your insights to be considered before the PEP is written, please complete and return this form to your child's teacher with the permission to serve form.**

Please evaluate the skill level, interest level, and motivational level, *from your viewpoint*, in each of the following areas by circling the appropriate number, with '5' being high and "1" being low. You may add additional comments as needed.

- **Skill level** - *How proficient is your child in this area?*
- **Interest level** - *How curious, engaged, or excited is your child in this area?*
- **Motivational level** - *How strongly does your child feel about doing well in this area?*

Meeting the Educational Needs of Your Elementary TAG Student

In order to best meet your child's learning needs, your child's teacher will complete a Personal Education Plan (PEP) for him or her. We encourage you to meet with his or her teacher to provide input into this process. If at any time, you feel the PEP is not meeting your child's rate and level of learning, please contact the classroom teacher. The school's TAG Liaison, _____, and/or the principal are also available to assist you and the teacher in seeking appropriate strategies to provide for the needs of your student. Additional support in planning and student advocacy is available through the district TAG coordinator at 482-2811. You may request a form at that number that will allow you to document your concerns relating to TAG services.

If after exhausting the above-mentioned resources, you feel that your child's specific needs are still not being addressed, you may pursuant to Oregon Administrative Rule 581-22-404, file a complaint with the Office of the Superintendent. The process for filing a complaint is as follows:

AR 8810: COMPLAINT PROCEDURE FOR ALLEGED STANDARDS VIOLATION

Complaints of alleged standards violation(s) by a member(s) of the community who resides in the district or any parent or guardian of students attending school in the district will be made in writing and filed on the district-provided form, "*Alleged Violation - Standards for Oregon Public Schools.*"

- Written and signed complaints will be presented to the office of the Superintendent.
- Alleged violations will be considered by a review committee appointed by the Superintendent consisting of three members, one of which is a layperson.
- A written reply indicating the findings of the Superintendent will be made to the individual filing a written complaint within two weeks of the time such a complaint is filed in the Superintendent's office.
- If the findings of the Superintendent are not satisfactory to the complainant, a written request for a hearing before the School Board may be made. Should such a request be made, the School Board must schedule a hearing and render its final decision to the complainant within 45 days of the complaint being filed.
- A formal hearing will be held using established district hearing procedures.

Ashland School District Talented and Gifted Education

Meeting the Educational Needs of Your Secondary TAG Student

In order to best meet your child's needs, secondary teachers will complete a Flexibility Plan in the core curriculum areas for all TAG students. This Flexibility Plan (FLEX Plan) will address assessment of needs and curriculum modification as it relates to rate and level of learning. Each TAG student will be given a copy of this plan. If your child does not share this plan with you, additional copies of teachers' FLEX Plans will also be available in the school office. If you feel the FLEX Plan for a class is not meeting the educational needs of your child, you may request an individual plan be written for that class. If at any time, you feel your child's learning needs in the areas of rate and level are not being met, please contact the classroom teacher. The school's TAG liaison, _____, and/or the principal are also available to assist you and the teacher in seeking appropriate strategies to provide for the needs of your student. Additional support in planning and student advocacy is available through the district TAG coordinator at 482-2811. You may request a form at that number that will allow you to document your concerns relating to TAG services.

If after exhausting the above-mentioned resources, you feel that your child's specific needs are still not being addressed, you may pursuant to Oregon Administrative Rule 581-22-404, file a complaint with the Office of the Superintendent. The process for filing a complaint is as follows:

AR 8810: COMPLAINT PROCEDURE FOR ALLEGED STANDARDS VIOLATION

Complaints of alleged standards violation(s) by a member(s) of the community who resides in the district or any parent or guardian of students attending school in the district will be made in writing and filed on the district-provided form, "*Alleged Violation - Standards for Oregon Public Schools.*"

- Written and signed complaints will be presented to the Office of the Superintendent.
- Alleged violations will be considered by a review committee appointed by the Superintendent consisting of three members, one of which is a layperson.
- A written reply indicating the findings of the Superintendent will be made to the individual filing a written complaint within two weeks of the time such a complaint is filed in the Superintendent's office.
- If the findings of the Superintendent are not satisfactory to the complainant, a written request for a hearing before the School Board may be made. Should such a request be made, the School Board must schedule a hearing and render its final decision to the complainant within 45 days of the complaint being filed.

A formal hearing will be held using established district hearing procedures.

PERSONAL EDUCATION PLANS

Ashland School District Talented and Gifted Education Personal Education Plans Grades K-5

Every identified Elementary (K-5) TAG student shall have a Personal Education Plan (PEP) completed by his or her teachers. This process shall include the following:

- Parents will be sent a Student Informational Profile by the second week of school and asked to return them. The Student Informational Profile shall be considered in writing PEPs.
- The PEP will be written by the end of September or within three weeks of a student's identification.
- After the PEPs are completed, a copy will be sent to the parents by the first week in October or within four weeks of identification.
- PEPs will be reviewed with the parent and teacher at each conference.
- At the end of the school year a review of the year will be noted on the PEP and shall include additional assessments and recommendations for the forthcoming school year.
- A final copy will be sent to the parents at the end of the school year. A copy will also be placed in the students TAG file at the end of the year.

Responsibilities in the PEP Process

Building TAG Coordinator

- The building TAG liaison, with assistance and support from the District Coordinator, shall provide a list of identified TAG students, PEP forms, and instructions as needed to teachers in the building.
- Building TAG liaisons *or school secretaries* will mail a copy to the parent by the end of the first week in October or within four weeks of identification.
- Building TAG liaisons *or school secretaries*, at the end of the school year, will send an additional copy to the parents and the **original** will be placed in the student's file.

Classroom teachers

- The classroom teacher will be responsible for assessing rate and level of learning and planning for services or modifications to meet student needs and noting those on the PEP form.
- The classroom teacher is responsible for documenting all assessments of rate and level and modifications made to meet learning needs.
- The classroom teacher will review the PEP with the parent at each conference. Comments related to that review will be noted on the form. At the end of the year, the student's progress and recommendations for next year will be noted on the PEP form. Classroom teachers will give the final copies to the building TAG liaison and make a copy of the final form to keep in their personal records.

Principals

- Responsibility for enforcing the TAG requirement and the quality of the PEPs rests solely with the building principal.

PEP Contents

The teachers will assess present rate and level of performance in reading, spelling, vocabulary, writing, math, science, and social science. Using that assessment, teachers will plan the modifications to the curriculum that may be needed for the student. The assessment used and the modification planned will be documented on the PEP form. Teachers are encouraged to personalize the PEP with appropriate comments. Assessment, modification and documentation should be an ongoing process.

Ashland School District Talented and Gifted Education The PEP Process

Each teacher of an elementary TAG student in grades K - 5 will write an individual TAG Personal Education Plan (PEP) in September of each year *or within three weeks after a student is identified*. The PEP will be reviewed and revised at the end of the first and third quarter to ensure the rate and level learning needs are being met.

Step One: Assess rate and level of learning in all academic areas regardless if the student is only identified in one area!! These areas include: math, reading, spelling/vocabulary, writing, science, and social science. Record the assessments on the PEP form and in your grade book. These assessments can be done using any of the following methods:

Assessment Options for Rate and Level of Learning and Instruction

- Placement recommendations and specific data from previous teacher(s)
- Performance and Demonstration Task
- Standardized Test
- Oregon Statewide Assessments
- Journals
- Research reports
- Writing Samples scored with analytical scoring guide
- Spelling Pretests
- Skill tests
- Student Portfolio
- Essay Questions
- Peer evaluations of performance or products
- Monitoring of daily work
- Students input and self assessment and/or interview
- Parent input and information
- Specific teacher observational data
- Placement test
- TAG identification tests and/or evaluations
- End of the Book Test
- Chapter/Unit tests
- Final/Semester Exams
- Student survey of books already read
- Informal Reading Inventory

Be very careful about using only one assessment tool, particularly if it does not indicate the student's rate and level are above peers. For example, if you are using a OSA score in math as the assessment, and the student scored at the 79%ile, you should use at least one more assessment tool which will corroborate that score before you determine whether modification to the normal curriculum is needed.

When appropriate, you may use the Student Observation Profile as an assessment tool. It will be the parents responsibility to get this to you in early September. It may also give you some ideas for modifications that the student and parent feel are relevant.

Step Two: Determine instructional modifications based on your assessment data.

Instructional modifications should provide advanced level work and/or an increase in the pace of the instruction as indicated by the assessment. Document the modifications on the PEP form, in your grade and/or lesson plan book as appropriate. **Please make comments** and/or further describe your modifications in the space provided on the PEP form. You may choose from the following strategies or identify another strategy of your choice:

Possible Instructional Modifications

(See Programs Section: Page 2)

- Acceleration/Advanced Materials
- Independent Study Project
- Assignment Modification/Differentiation
- Contracts
- Small Group/Cluster Instruction
- Most Difficult First/Compacting
- Enrichment
- Regular Classroom Work
- Remediation
- Other (specify)

Step Three: Write down the date when PEP was sent to the parents under “Opportunity for Parent Input” on the PEP form, page two.

Step Four: Give the entire PEP to your principal or TAG Liaison as determined by your school. Keep PEPs in a safe place as you will need access to them at each of the conferences.

Step Five: At the conferences, review the PEP with the parent. Discuss any significant changes in the following:

- Student’s pace, direction, or focus of classroom instruction
- Student’s response to classroom material
- Student’s social or emotional behavior as it relates to learning

Please note those changes or discussions on the last page of the PEP in the boxes called “1st Conference Review” and “2nd Conference Review.” Also, put the date when this conference took place under “Opportunity for Parent Input.” If the parent does not come to conference, please indicate this on the form. Return form to your file. Nothing is mailed home at this time.

Step Six: Document the end of the year assessments and recommendations for the coming year. Sign and date.

- ◆ Make a copy of both pages of the PEP for your files. Save these in a safe place and accessible place.
- ◆ Give the original and one other copy to the building TAG liaison. One copy will be mailed home, the original will be placed in the student’s TAG file.

REMINDER

The state law requires you to document assessment, modification, and opportunity for parental input. This must be an ongoing process.

Below are some of the acceptable forms of documentation.

- grade book
- lesson plan book
- copies of contracts
- portfolios
- copies of lesson instructions

Accommodating Accelerated Rates of Learning

Strategy	Description	Works Best In
Most Difficult First	Offer students choice to do the four or five most difficult problems/tasks first and, if completed correctly, the student receives credit for complete assignment. When finished, the student has option of how to spend “bought” time.	Mathematics, skill-based classes
Pre-testing and Compacting	Offer students choice to take a pre-announced pretest on the next unit of study. Any student scoring 80%+ earns right to waive class work on mastered concepts and may instead work ahead in text. When class covers concept student missed on pretest, s/he rejoins and completes regular classwork. Student takes normal weekly, unit tests.	Any course
Accelerated Pacing	Accelerated students(s) work toward a final exam or challenge test, to be taken at pre-arranged time. Students have a timeline for covering text/material, with chapter/unit test dates predetermined. Student(s) work semi-independently. Successful completion of final/challenge exam allows student to move to next course of study or to work on an in-depth project in lieu of rest of year’s classwork.	Any course (Challenge test available for: Algebra, Economics, English I, English II, Geometry, Global Studies/World History, Government, Health I, Health II, Personal Finance, US History)
Course Challenge Process	Student chooses in lieu of taking required course.	See above list.
Independent Study	Independent program, designed in partnership between student and teacher; must be well supervised with periodic “checkpoints” and ongoing measures of progress.	Any course
Out-of-level Placement	Student is placed in a higher-level course	Any course (Requires parent and principal approval)

Ashland School District Talented and Gifted Education

Accommodating Advanced Levels of Learning

Strategy	Description	Works Best In
Menus of Activities	Offer students choices (2-4 usually sufficient) of assignments/projects. Choices should range from basic skills to complex processes. Grade or other incentives for more challenging choices.	Any course
Learning Contracts	Use pre-testing* to determine eligibility for Learning Contract. Allow student(s) some flexibility in how "bought" time is used. Posted Choice Time Activities, Multiple Intelligence menus, Science Fair Projects, or other projects may be substituted for classwork. Minimize "grade penalties."	Any course
Accelerated Pacing	<p>Accelerated students(s) work toward a final exam or challenge test, to be taken at pre-arranged time. Ashland School District Talented and Gifted Education

Flexibility (FLEX) Plans for Secondary TAG Students

FLEX Plans are written to accommodate the rate and learning needs of identified Talented and Gifted (TAG) students at the middle and high school level. FLEX Plans are meant to address the State-required issues regarding TAG students. These minimum requirements from the state are:

- Each TAG student's level of learning must be assessed in all subjects.
- Each TAG student's rate of learning must be assessed in all subjects.
- Instruction must address the assessed rate and level of learning.
- Both the assessment and the instruction must be documented.
- Parents must be given opportunity to give input into programs and services provided for their student. *
- All teachers (100%) must comply with these regulations.

Minimum content of the Flexibility Plan is: (see samples)

- Some acknowledgment that you as the teacher recognize that students can learn at varying rates and levels.
- Affirmation that accommodations will not add additional work on top of existing course requirements.
- Indications of how you will assess rate and level of learning.
- What curriculum accommodations will be offered to meet assessed needs.
- How students can qualify for or request accommodations.
- How differentiated or accelerated work will be graded.
- How parents and students can be involved in the process.

Please review your FLEX Plan before submitting it to make sure you have included all of the above.

The FLEX PLAN will:

- Include Course Name, Teacher Name, Year
- Be written once a year or once a semester as applicable for all the following classes:

<i>Math</i>	<i>Child Development</i>	<i>Computers</i>
<i>Science</i>	<i>Marketing</i>	<i>Health</i>
<i>Social Studies</i>	<i>Psychology</i>	<i>Personal Finance</i>
<i>Language Arts</i>	<i>Foreign Language</i>	
<i>All other courses, including electives, not specifically exempted</i>		

- Be neatly typed (please use an easy-to-read font)
- Be given to _____ by _____ for approval. A copy will be sent to the district office after approval by the building principal.
- After approval, be given to each identified TAG student in your class. **THIS IS IMPORTANT.**
Insist that students take these home and share them with their parents.
- Be kept on file in the office for access by parents as needed.

FLEX PLANS may be:

- Written in a format of your choosing.
- Written so that all students may take advantage of modifications.
- Optional (per discretion of the building principal) in the following classes:

<i>Visual Arts</i>	<i>Crafts</i>	<i>Calligraphy</i>	<i>Music</i>	<i>Band</i>
<i>Choir</i>	<i>Foods</i>	<i>Sewing</i>	<i>Home Ec</i>	<i>Phys. Education</i>
<i>Construction</i>	<i>Shop</i>	<i>Woodshop</i>	<i>Welding</i>	<i>Auto Mechanics</i>
<i>Drafting</i>	<i>Keyboarding</i>	<i>Photography</i>	<i>Speech</i>	<i>Drama</i>
<i>Journalism</i>	<i>Annual</i>	<i>Leadership</i>	<i>Student Gov</i>	<i>Career Awareness</i>

Remember - Even if *written* FLEX Plans in these areas are deemed optional by building principals, assessment and modification are still required in these classes. Teachers are still held accountable for assessing level and rate of learning and making appropriate modifications in all classes.

In addition:

- If a parent or student does not feel that your FLEX Plan will truly meet the needs of their TAG student, they may request a Personal Education Plan for your class. If this happens, make sure that the building TAG Coordinator receives a copy of that plan. Additionally, TAG students and parents have the right to request a FLEX Plan or a PEP in the above “Optional Classes.”
 - Documentation of assessment and accommodations must be ongoing throughout the year. Make sure you have documented all pre and post assessments in your grade book. Find a workable way to use your gradebook, with a simple coding system to identify modified assignments or tests. Code your lesson plan book to indicate modified assignments. Save copies of modified assignments, learning contracts, or menus of activities that were made available to TAG students. **Documentation is a State regulation that is the responsibility of each classroom teacher.**
 - At all levels, the goal is to ensure that the gifted learner is stimulated and challenged throughout the school day by means of advanced content, flexible pacing, higher order thinking skills, projects, and/or materials appropriate for the student’s learning.
-

*** Opportunities for Parent Communication and Input**

- Conferences
- Telephone Contact
- Student Observation Profile
- Letter(s) to parent concerning the plan
- Other written communication
- School and TAG Newsletters
- TAG parent meetings

SAMPLE of a TAG Flexibility Plan

Course: Sociology / Psychology

Teacher:

General:

In Sociology/Psychology, you will be given the opportunity to involve yourself in a number of different assignments that are not on line with the rest of the class. These choices are not a reduction in your work load but instead are designed to challenge and interest you as well as provide you with a chance to develop your own learning plan with my assistance. It is important that we communicate throughout the school year on what your needs might be. My goal is to give you every opportunity to learn and grow as an individual within the Framework of a Sociology/Psychology class.

Assessment:

By design you will learn new things on a daily, weekly, and monthly basis. In order for me to know not only what you are learning, but also how challenging and complex the materials are, I must assign you tasks, assignments, reports, tests, and various other means of determining the depth to which you are studying and comprehending those materials. In addition, I will examine your work from last year; check your COG scores, information in your TAG file, and your performance on all the work you accomplish throughout the school year. If it appears you need to study Sociology/Psychology in more depth, I will select alternate materials and assignments that provide you with a greater challenge.

Accommodations:

Menus of Activities

For every major assignment in this class, you will have choices of which assignment you prefer to do. I hope that you will choose the tasks that will let you use your creativity and thinking skills. **To get an "A" in this class, you will either have to do the more difficult activities or do more of the easier activities more in-depth and at a higher quality.** Sometimes you will be able to work in a small group or with a partner. Other times you will have to work by yourself.

Learning Contracts:

A learning contract is a written agreement between you and me that allows you to work on a project of your choice while the class is studying something you already understand. All you have to do is sign-up to take the pre-test before a new unit. I will give you a study guide for the pre-test and a few days to prepare. If you score 80% or better on the pre-test, then you can have a learning contract. If you have a learning contract, you will have to report every Friday to me about your progress on your project either verbally or in writing. Your grade will then be based on your quiz, project, and test scores instead of daily work. However, if you disturb other students or do not make progress on your project, then you will lose the learning contract and must rejoin the class and complete all class assignments.

Moving Ahead:

If this class seems to be moving too slow for you, then you and I will meet to agree on a plan to allow you to accelerate your study of the Sociology/Psychology curriculum. If you complete the quarter's study early, then you can use the rest of the time to either begin next quarter's curriculum, to prepare for Mock Trial or Brain Bowl, or to explore a topic of interest to you. At no time can you use the additional time to socialize with other students in the class.

I would be happy to meet with you and/or your parents to discuss your learning needs in this class.

SAMPLE of a TAG Flexibility Plan

Course: Chemistry

Instructor:

This flexibility plan is being offered to all students in the above-mentioned class because students have demonstrated the ability to learn at various rates and levels of understanding. It is my goal to challenge students to be people of integrity and to reach their maximum abilities in thought, word, and action. Therefore, every student will have the opportunity to modify planned learning activities if their performance demonstrates such an accommodation will benefit their personal or educational growth.

The eligibility for modification will be based upon one or more of the following assessments.

- A. Unit pre-tests and tests.
- B. Monitoring of written assignments.
- C. Observation of participation or hands on activities.
- D. Standardized test results when available and applicable.

Possible modifications or accommodations will not involve standard work and additional work, but rather, alternate work or activities to better meet the rate or level of learning exhibited by the student. Interested or identified students may be given unit pre-tests to ascertain mastery of content. Students obtaining an 80% or higher score may choose any one of the following accommodation plans.

- a. Independent study through a learning contract. The student in consultation with myself will choose a project, research topic, etc. to pursue in lieu of the normal unit of instruction.
- b. Alternate choice of topics within the subject field. The student will study a topic or topics of their choice not normally covered in the course, but still within subject boundaries.
- c. Acceleration or working ahead. The student may work ahead more quickly to complete the standard course of study to complete the class more quickly. If this option is chosen, the student should have an approved plan to productively use the time saved. i.e. class tutor, taking another class, taking college course, etc.
- d. Other modification upon mutual consent of the student, family, and teacher.

Students attempting accommodation will not be graded more strictly than students completing the more normal learning activities. Accommodation students will receive a minimum grade equal to their pre-test score and can be given a higher grade based upon the quality of the work done in lieu of the normal work. Qualifying students would therefore be granted a minimum "B" grade with the opportunity to earn an "A" through quality alternate work. Students who do not work diligently, or disturb the work of other students will lose the privilege of modification.

SAMPLE of a TAG Flexibility Plan

Course: English I

Teacher:

General:

Different students learn at different levels and at different rates. This is particularly well exemplified in freshman English, where students from across the learning spectrum are represented. Each student is expected to learn reading and writing skills relevant to success in school, in the work force, and on state assessment exams.

Assessment:

Students are assessed in a number of ways in English I; the most significant source of assessment, however, is the students' writing. Tests and quizzes, COG scores, and State Reading and Writing Assessment scores are also used.

Accommodation:

Based on the above assessments, any necessary modification to the curriculum to better meet the needs of TAG students will be done by one or a combination of the following:

- Allowing the student to pre-test out of weekly grammar assignments;
- Offering the student an alternative method of completing weekly vocabulary assignments;
- Allowing students to pursue different writing options when appropriate;
- Allowing students to choose their own literature to study.

The goal of English I is to challenge students and to make them better readers, writers, speakers, and listeners. No TAG student will be required to do extra work in achieving this goal, but the specific course requirements may be adjusted to allow him or her to meet the objective differently. Suggestions from students and parents on specific adjustments or accommodations are welcome.
