

6/07/2019

Hello Parents,

I had a lovely time meeting and visiting with your child this year! I also am speaking for my student intern from SOU when I say we had a terrific time getting to know your sweetie, and I trust that you will have observed steady growth especially within the emotional social domains.

I want to encourage you to reflect as the summer progresses, whether you'd like to see him/her continue to receive this same support, next fall.

We are attempting to gage interest in this service and what our needs will be next year, and although we cannot guarantee there will be 100% ability to place them in visits, we will do our best to honor the needs.

As we get back to school, and you determine you'd like this service please email me directly at:

Meredith.McFadden@ashland.k12.or.us

Also, see the copy of our permission slip on this tab, as well. You can print those at home, if you'd like and have them signed as you send your child to school. They can hand it to their teacher, who will then get the slip to me.

Have a Lovely Summer Break~~~

Warm Regards,

Meredith
