

Earn College Credits @ AHS!

RCC Electronics Program

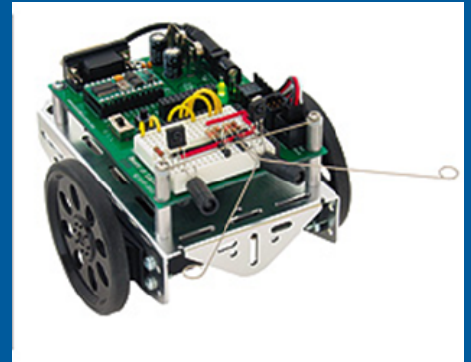

Description of the introductory course:

EET112 Introduction to Mechtronics uses a Parallax Boe-Bot as the center piece for students learning mechanical assembly, programming, and motion control in automated systems. Course includes electrical assembly techniques, safety, drafting, and soldering of through-hole and surface mount components. Students design, program, and implement a final Boe-Bot project to demonstrate course content mastery.

Tuition & Fees: \$485.00*

Boe-Bot Kit (required): \$159.95

*Tuition and fees are subject to change.
